NOTE ON COURSE CATEGORIES

Discipline Specific Core (DSC)

Discipline-specific core courses refer to subjects that form the essential foundation of an academic program or major within a broader discipline. These courses provide students with the core knowledge, skills, and methodologies specific to their chosen field. It is because this program is multidisciplinary students need to have study courses from one more core discipline, which is part of the Program. DSC A denotes the primary core discipline, and DSC B Denotes the secondary core discipline.

Discipline Specific Electives (DSE)

Discipline-specific electives (DSEs) allow students to delve deeper into their chosen field. Unlike core courses that provide foundational knowledge, DSEs enable students to explore specific areas of interest within their major. DSE A denotes electives from the primary core discipline, and DSE B denotes electives from the secondary core discipline.

Generic Electives (GE)

Generic Electives are credited and choice-based. The students choose from a pool of GE offered by the different faculties.

Value Added Courses (VAC)

Value Added Courses are credited and choice-based. The students choose from a pool of VAC offered by the Faculty under the University.

Ability Enhancement Compulsory Course (AEC)

Ability Enhancement Compulsory Courses are credited and choice-based. The students choose from a pool of AEC courses offered by the Faculty under the University.

Skill Enhancement Courses (SEC)

Skill Enhancement Courses (SEC) are a series of targeted programs designed to equip learners with valuable and in-demand skills.
