FACULTY OF DENTAL SCIENCES

ABOUT US

SGT Dental College, Hospital and Research Institute is a premier institution for dental education and research. Established in 2002, the college later became a constituent faculty of SGT University in 2013 as “Faculty of Dental Sciences”. The university is widely recognized for its commitment to academic excellence, interdisciplinary learning, innovation, and advanced research initiatives.

Located on a sprawling 70-acre campus on the outskirts of Gurgaon, the university provides a modern academic environment supported by advanced infrastructure and extensive learning resources. Its dedication to quality education and institutional growth earned it the prestigious NAAC A+ accreditation, making it one of the youngest universities in India to achieve this distinction. The university also offers highly regarded medical and healthcare programs in collaboration with SGT Medical College, Hospital & Research Institute.

The dental college focuses on delivering high-quality education through innovative teaching methods, research-oriented learning, and comprehensive student development. The institution features advanced infrastructure, including ICT-enabled classrooms, modern pre-clinical and clinical laboratories, and technologically equipped learning facilities designed to enrich students’ academic experiences.

The associated dental hospital serves as an integral part of the institution and is equipped with advanced dental units, diagnostic systems, and modern treatment facilities. Students receive extensive clinical exposure through supervised patient care, allowing them to develop practical skills, clinical confidence, and professional competence. The college’s structured clinical training programs emphasize experiential learning and hands-on practice across various dental specialties.

In addition to academics, the institution strongly promotes the overall growth of students by encouraging participation in extracurricular and professional development activities. These include continuing dental education programs, seminars, workshops, oral and general health awareness camps, cultural events, and indoor as well as outdoor sports activities. Such initiative help students, develop leadership qualities, communication, skills, teamwork, and a sense of social responsibility alongside academic excellence.

MESSAGE FROM DEAN'S DESK

Prof. (Dr.) Sumit
Singh Phukela

Dear Colleagues, Students and Alumni,
Warmest greetings to all.

The Faculty of Dental Sciences stands committed to excellence in dental education, patient care and research. In an era of rapidly evolving healthcare demands, it is imperative that our institution nurtures not only skilled clinicians but also compassionate professionals and innovative thinkers.

At our faculty, we strive to create an academic environment that blends scientific rigor with ethical practice, ensuring that our graduates are competent, confident, and socially responsible oral healthcare providers.

Through continuous curriculum enrichment, research engagement, community outreach initiatives, and interdisciplinary collaboration, Our Faculty is dedicated to shaping future-ready dental professionals. Our focus remains on holistic development — strengthening clinical expertise, fostering leadership qualities, and encouraging lifelong learning.

As Dean, I take immense pride in the collective efforts of our faculty, students, and staff in upholding the standards of academic excellence and contributing meaningfully to both national and global oral health advancement.

NOVA DENTO-EUREKA - THE ANSWER TO DENTAL CARE IN AGE OF NEXT GENERATIONS

Today, we as individuals stand at the crossroads where our lives have totally transformed with a great level of transformations happening with each thought which crosses by. The latest in the list being the incorporation of Artificial Intelligence in our lives and the understanding, acceptance and fruitful progression of Generational thoughts to carry out routine and long-term livelihood measures. So much so is the transformation time that we are unconsciously being governed by technology without even realizing whether we are moving towards fruitful solutions. Schools and Educational Institutes need to adapt and adopt these changes and perceptions so that appropriate outcomes can be delivered. As the year 2020 rang the new year bells, people were pushed to live in fear of contracting the dreaded COVID pandemic disease, and beyond it, lives have just seen changing trajectories both at individual levels and the mass society levels.

Dental Care, a high-end specialized form of health care, has been an underutilized service by society, due to its own reasons. But during COVID, it probably was being feared to add the burden of being a high transmission means of the disease, but as the dust settled the need for the oral disease burden took over and the profession was back needed to stand for one of the major direct or indirect health concerns of the society. During this time and beyond, technology took over the means of Education in Dentistry and within the last 5 years technological innovations and transformations are the need of the hour and a boon for educational reforms in professional dental teaching and a boon for our various modes of operations in good dental care. Especially when we wish to respect the high technique sensitive nature of dental care, having these technological transformations will always help us be focused on our technical skills.

Ironically, the dental fraternity celebrated its centenary year in 2020, of its existence in India since its inception in 1920 at Dr. R. Ahmed Dental College and Hospital, Kolkata. The year which should have been the year of celebrations has turned out to be a year of re-invention, where we are searching for the Nova Eureka moment which can take this prolific profession of Dentistry forward. Due to technological and generational perceptions, this Nova Eureka moment has been reforming out into the New Age profession of Dentistry, which can make us the world leaders in Oral Health Care, especially because of the professional knowledge strengths and generational zeal.

Oral Health is considered many a times, a mirror to the General Health of the Human body. Compared to the global scenario dental care in India has always been a need or cure based form of health care. The fact that COVID 19 reiterated that 'Prevention is better than cure', rather it redefined it as 'Prevention is the only cure'. But we need to focus on Cure and Prevention both as per the need of the society. Thus, the time has come to adopt and adapt to all the technological transformations which can ensure the fruitful success of priorities like promoting dental public health and executing high-end curative dental care services. The concepts of dental public health will need to be incorporated as a life-course approach, where in all ages of mankind, from infants to elderly will have to consider oral health as a priority and also through the new age measures make oral health care a close part of one's life.

Whether we name to future as one of Atmanirbhar Bharat or a one of Generation Z to Generation Beta, we need to continuously evolve the purest science of Dentistry in India and Globally beyond. Hopefully with these transformational reinventions of Dentistry, we can add value to our predecessors who have threaded the profession of dentistry for a hundred years now and many more hundred years to come.

ACADEMIC EVENTS

Learning beyond application

Hands-on Workshop on Bite Mark Identification

The Department of Oral & Maxillofacial Pathology and Oral Microbiology successfully organized the two-day workshop on **22nd and 23rd April 2026**.

The programme was conducted by **Dr. Ashith B. Acharya**, an internationally renowned forensic odontologist recognized for his expertise in forensic dental identification, age estimation, bite mark analysis, and forensic anthropology, with extensive experience in national medico-legal investigations.

The workshop featured expert lectures, case discussions, live demonstrations, and hands-on training in bite mark analysis, providing participants with practical insights into the application of forensic odontology in criminal investigations. The programme significantly enhanced participants' understanding of dental evidence, strengthened their analytical and practical skills, and reinforced the growing role of forensic dentistry in modern investigative science.

World Orthodontic Day

The Department of Orthodontics and Dentofacial Orthopaedics celebrated **World Orthodontic Health Day** on **15th May, 2026**, with great enthusiasm to promote awareness about the importance of orthodontic care and oral health. The celebration included a variety of academic and creative activities aimed at encouraging innovation and professional excellence among students. Competitions such as E-Poster Presentation and Wire Bending showcased the participants' scientific knowledge, clinical skills, and creativity.

Academia Field Visit titled “Bridging Clinics and Innovation: Exploring Advanced Dental Materials at 3M”

The Microscope Enhanced Dentistry Club, under the Department of Conservative Dentistry and Endodontics successfully organized an Industrial–Academia Field Visit at 3M on **26th April 2026** at 3M India Ltd., Gurgaon. The visit offered 3rd Year BDS students, Final Year students, and Interns valuable exposure to advanced dental materials, their industrial applications, and the latest innovations in clinical dentistry through interactive sessions and demonstrations.

World Oral Health Month

The Department of Public Health Dentistry, under the aegis of the Indian Association of Public Health Dentistry (IAPHD), launched the month-long celebration of World Oral Health Day 2026 on **20th March 2026**. The programme, conducted from **20th March to 20th April 2026**, focused on promoting oral health awareness, preventive oral healthcare practices, and improving access to quality dental services for underserved and vulnerable populations.

A series of academic and community outreach activities were organized, including academic-cum-field visits, capacity-building programmes for healthcare professionals, expert webinars, oral healthcare services, and special outreach camps for vulnerable communities. These initiatives aimed to enhance oral health literacy, strengthen preventive and curative dental care, and encourage lifelong oral hygiene practices.

Guided by the theme, "A Happy Mouth is Truly a Happy Life," the department reaffirmed its commitment to advancing community oral health through sustained awareness and outreach initiatives.

AI Prompts in Healthcare and Notebook LM

Lecture cum Hands-on Workshop was conducted on **8th May 2026**, by Academic Club, Young Smile Keepers, department of Pediatric dentistry to enhance awareness and practical understanding of Artificial Intelligence tools in healthcare education and clinical practice, with emphasis on AI prompts and Notebook LM for academic, research, and professional applications.

World No Tobacco Day

The Faculty of Dental Sciences, SGT University, through the Departments of Oral Medicine & Radiology, Public Health Dentistry, and Oral & Maxillofacial Surgery, observed World No Tobacco Day 2026 with outreach camps, awareness talks, nukkad natak, and free oral cancer screening services from **20th May onwards**. The campaign concluded on **1st June 2026** with the inauguration of the Centre of Excellence for Integrated Tobacco Cessation and Oral Health and a multidisciplinary panel discussion on tobacco cessation, disease prevention, integrative healthcare, research, and collaborative strategies for a tobacco-free society.

The occasion also featured a multidisciplinary panel discussion with experts from the Faculty of Medicine & Health Sciences, Ayurvedic Sciences, Dental Sciences, and Psychology, focusing on collaborative tobacco cessation strategies, prevention of tobacco-related diseases, integrative healthcare, research, and the role of healthcare professionals in building a tobacco-free society.

Certification Course on Suturing

The Department of Periodontology, FDSC, has successfully completed Module 1 of the course for Batch- 1 of Interns in the month of **May 2026** which provided interns with a strong foundation in the Basics and Fundamentals of Suturing through interactive lectures and discussions on key concepts of surgical suturing. Participants were introduced to essential topics including principles and goals of suturing, suture materials, needles, surgical knots, knot tying techniques, suture removal, and alternatives to suturing.

Interdisciplinary Meet for PG Students

The Interdisciplinary Meet for PG Students was successfully conducted on **15th April 2026**.

Postgraduate students showcased their academic excellence and were felicitated for their insightful and impactful presentations.

Dr. Gunjan and **Dr. Himani** from the Department of Periodontology and **Dr. Bobby** from department of Oral Maxillofacial Surgery presented their commendable work, adding to the academic richness and vibrancy of the event.

Rotary selection and separation- Clinical perspectives

Prof. Dr. Narasimhan Bharadwaj, Professor at Saveetha Dental College & Hospital, Chennai and Adjunct Professor at MAHSA University, Malaysia, conducted an insightful Lecture cum Hands-on Workshop organized by the Microscope Enhanced Dentistry Club under the Department of Conservative Dentistry and Endodontics in collaboration with Dentsply Sirona on **20th May 2026**. The workshop witnessed enthusiastic participation from students, academicians, and dental practitioners across Delhi NCR.

Through his scientific lecture and practical demonstrations, Prof. Dr. Bharadwaj shared valuable clinical insights into rotary endodontics while the hands-on training enhanced participants' practical skills and understanding of contemporary endodontic procedures, making the program an enriching platform for academic learning and skill enhancement.

Basic Injection techniques workshop

The Department of Oral & Maxillofacial Pathology and Oral Microbiology organized a hands-on workshop on Injection and Basic Blood Withdrawal Techniques on **21st May 2026** at the National Reference Simulation Centre (NRSC), SGT University, for BDS undergraduate students and interns.

The simulation-based workshop provided practical training in intravenous (IV), intramuscular (IM), subcutaneous, and intradermal injection techniques, along with basic blood collection procedures. Participants were also trained in infection control, aseptic techniques, patient safety, sharps handling, and biomedical waste management, strengthening their clinical competencies and bridging the gap between theoretical knowledge and clinical practice.

Enhanced Vision, Elevated Care: A Workshop on Dental Magnification

The Department of Periodontology, in collaboration with the Perio-Unnati Academic Club, successfully conducted an enriching hands-on workshop on **3rd June 2026**. The session aimed to enhance clinical precision through the use of magnification tools, providing attendees with practical exposure and deeper insights into modern periodontal techniques.

From basic principles to advanced applications of loupes, participants gained the opportunity to engage in detailed demonstrations and hands-on exercises under expert guidance. The workshop witnessed enthusiastic participation from postgraduate students, interns, and student members of the Perio-Unnati Academic Association Club, all keen to elevate their diagnostic and surgical finesse.

Exploring Global Pathways in Healthcare Leadership

Faculty of Dental Sciences, in collaboration with the Office of International Relations, organized the webinar on **9th June, 2026**.

This program was graced by **Ms. Malini**, Faculty at Griffith University, Australia and **Ms. Ashini Malhotra**, Regional Director Griffith University – Australia (South East Asia and Middle East), New Delhi.

The session provided students with valuable information about the Graduate Certificate in Health Services Management, admission requirements, career prospects, and opportunities for higher education abroad.

The webinar broadened students' global perspectives and inspired them to explore international educational opportunities in healthcare management.

LAURELS AND ACCOLADES

Achieving excellence with merit

Dr Sunil Gulia,
Associate Professor,
Dept of Oral and
Maxillofacial Surgery,
was invited as keynote
speaker at 127th Annual
meeting of the Japanese
Society of
Otolaryngology-Head
and Neck Surgery on
15th June 2026.

Dr Sunil Gulia was invited as a
keynote speaker at 1st UP Head
and Neck Onco meet 2026,
held at Kanpur on
10th May 2026.

Dr Sunil Gulia was awarded Young Scientist
Award at International Conference on
Development of Emerging Technologies for
Advanced life-long Oral Care by Adgrow
foundation on **25-26th April 2026.**

Dr. Amit Bhardwaj was honoured with the "**Best Researcher of the Year – Indian Dental Excellence Award 2026**", recognizing his outstanding contributions to dental research and academic excellence at 19th World Dental Sciences and Oral Health Conference jointly organized by the Pierre Fauchard Academy and Manav Rachna Dental College, Faridabad on **5–6 June 2026**.

The Department of Periodontology, Faculty of Dental Sciences, participated in the 19th World Dental Sciences and Oral Health Conference Organized by the Pierre Fauchard Academy and Manav Rachna Dental College, Faridabad, on **5–6 June 2026**. Dr. Amit Bhardwaj, Professor, was invited as a Guest Speaker and keynote speaker, delivering an insightful lecture and presenting a scientific paper. Dr. Vidushi Sheokand, Professor and Head, served as Scientific Chairperson, presented a scientific paper, and was felicitated for her leadership and contribution to the conference's scientific deliberations..

The 24th ISPI Mid-Year PG Convention of the Indian Society of Periodontology and Implantology was held at Karnavati University, Ahmedabad, Gujarat, from 23–25 April 2026, bringing together academicians, postgraduate students, and delegates from across the country. A guest lecture on "Intellectual Property Rights" by **Prof. (Dr.) Amit Bhardwaj**, Periodontal Scientific Convenor, ISPI, highlighted the importance of intellectual property protection in dental research and innovation. **Dr. Vidushi Sheokand**, Assistant Secretary, ISPI, Professor and Head, chaired the session and served as a judge for the scientific poster presentations, inspiring young researchers through her valuable guidance and encouragement.

Dr Puja Malhotra served as a scientific committee member for the evaluation of the scientific presentations at the International Conference on Developments in Emerging New Technologies for Advanced Life-long Oral Care (Dental-2026 held on 25th -26th April 2026.

Dr Bhupender Yadav, Dr Reshu Sanan and Dr Pankaj Ritwal participated in the 28th IPS PG Convention from April 24–26, 2026 and conducted Pre-Convention Workshop on 'Challenges and Solutions in Managing Implant Prosthetics.'

The workshop provided an excellent platform for interaction with eminent prosthodontists and discussion on contemporary implant prosthetic concepts and clinical workflows.

Dr. Amit Bhardwaj was invited as a Guest Speaker on the topic “ Periodontal Surgical Considerations in Implantology” at **Sameeksha 7.0** held at DAV Dental College, Yamuna Nagar on 11th June 2026.

Dr. Bhupender Yadav delivered a keynote lecture during the **28th IPS PG Convention Begavi, Karnataka**, highlighting the transition from conventional to digital and hybrid implant prosthetic workflows. The session focused on evidence-based clinical approaches for improving treatment outcomes in implant dentistry held from **April 24 to April 26, 2026**.

Dr Bhupender Yadav and **Dr Reshu Sanan** served as speakers in the **IPS Exam Preparation 2026 Online Masterclass** held on **10 May 2026**, guiding postgraduate students on examination strategies, subject preparation, and clinical perspectives. The session aimed to enhance confidence and academic performance among PG aspirants.

Dr Pankaj was the chairperson in a session, and **Dr Puja Malhotra** was the moderator for a Masterclass session conducted by the Indian Prosthodontic Society.

Dr Bhupender Yadav delivered an invited lecture at the **3rd National IPS Undergraduate Convention** on the topic 'Making an Impression: Science and Art of Complete Denture Impressions' held on **13–14 June 2026** at the KD Dental College & Hospital in Mathura. The lecture emphasized fundamental principles and clinical techniques for achieving accurate complete denture impressions.

Dr Reshu Sanan was also invited as a keynote speaker on the topic “Seal it right: The Science of Prosthetic Cementation” Both also chaired scientific sessions. The event encouraged academic excellence and active student participation in prosthodontics.

Dr Reshu Sanan received a token of appreciation as chairperson during the **IPS PG Convention** held on **April 24 to April 26, 2026** in recognition of contributions to the scientific programme. The honour reflects active involvement in academic activities and commitment to advancing prosthodontic education.

Dr Bhupender Yadav served as a judge with Dr Neeta and Dr Rekha Gupta during the Dental Reel Competition conducted at the IPS Undergraduate Convention. The event promoted interactive learning, critical thinking, and healthy academic competition among undergraduate dental students. Dr Reshu Sanan conducted the Quiz at the IPS Undergraduate Convention.

Dr Bhupender Yadav delivered a guest lecture at the IDA Kashipur Scientific Program and received a token of appreciation for the scientific contribution. The session facilitated knowledge sharing with practicing clinicians and reinforced evidence-based prosthodontic practice.

Dr. Rangoli Srivastava, Assistant Professor, Public Health Dentistry was invited as a resource person for **Teach Meet-X: "Champions of Change: Stories of Active Learning"** for discussing on the pedagogy "Flipped classroom and experiential learning".

Dr. Shourya Tandon, Professor, Public Health Dentistry, was honoured with an award for long-standing Professional Good Research & Social Service Work in Dentistry by the Vice Chancellor, Prof. Dr. V.K. Jain, Teerthankar Mahavir University, Moradabad, during the recently concluded International Conference on Emerging Trends in Contemporary Dentistry at Moradabad held on 10th & 11th April 2026. The event saw participation & presentation by leading Dental Experts from India & Global Health Institutions.

Dr. Shourya Tandon, Professor, Public Health Dentistry, was invited as Chairperson to share his insights at the International Conference on Emerging Trends in Contemporary Dentistry at Tirthankar Mahavir University on 10th April 2026.

He chaired a session by Dr. Vikrant Mohanty on “AI-Enabled Tobacco Cessation: From Chairside Interventions to Population Health” — highlighting how digital intelligence can transform brief dental advice into scalable, data-driven public health impacts.

Dr. Rangoli Srivastava, Assistant Professor, Public Health Dentistry presented her scientific presentation on "Everyday Toxicity, Lifelong Consequences: Non-Industrial Childhood Lead Exposure Pathways, Gendered Impacts, and Dental Biomarkers in Low- and Middle-Income Countries — A Systematic Review and Policy Mapping" in Royal College of Surgeons, Lincoln's Inn Fields, London, England, UK on 3rd-4th June, 2026.

Dr. Mamta Singla, Dr. Akanksha Joon for their project “e-DentID: Secure Contactless Patient Identification Framework” and Dr. Shalu Bhardwaj for her project “Comparative Evaluation and Synergistic Effect of an NTH (Neem-Tulsi-Haridra) Formulation as an Ayurvedic Intracanal Medicament against Streptococcus Mutans, Enterococcus Faecalis and Candida Albicans: An In-Vitro Study” were honored at Synergy Gyanotsav 2026 – Faculty Edition.

Dr. Savvy Dhingra postgraduate student of Department of Conservative Dentistry & Endodontics secured First Prize in the E-Poster Competition at the CDE Programme conducted by Army Dental Centre (Research & Referral). Theme: “Retreat, Regrow, Restore: The New Era in Endodontics” held from May 1 to May 2, 2026. A reflection of academic rigor and evolving perspectives in contemporary endodontics.

BDS 2nd Year students won the Best poster award during 3rd National Indian Prosthodontic Society (IPS) Undergraduate Convention at KD University Mathura held on 13–14 June 2026. The award was presented by **Dr Anand** President Indian Prosthodontic society and **Dr Darshana Shah** President elect Indian Prosthodontic society.

The Department of Conservative Dentistry and Endodontics postgraduate students participated at the **19th World Dental Sciences and Oral Health Conference** held on 5th – 6th June 2026 at Manav Rachna Dental College, India. **Dr. Purva Narang** and **Dr. Vasvi Dahiya** secured 1st Prize in the Scientific Paper Presentation category, while **Dr. Jyoti Kandola** won 2nd Prize for her scientific paper presentation.

Faculty of Dental Sciences, SGT University proudly celebrates the achievements of its students and faculty at the International Conference on Developments in Emerging New Technologies for Advanced Life-long Oral Care on **25th–26th April 2026**. Thank you to OsseoLabs for recognizing talent, to **Dr. Tanvi Chawla**, Country Manager at OsseoLabs, for organizing such a wonderful event, and to Aadgrow Foundation for providing digital platform. **Mr. Yash Singh**, a BDS undergraduate, received the prestigious Young Scientist Award for his outstanding research contributions and scientific potential. **Ms. Juhi Ruth** was honored with the Best Oral Presentation Award for her innovative work, “O.R.B.I.T – Optimized Regenerative Bone Intelligent Tracker.”

Ms. Sakshi Gupta also earned the Best Oral Presentation Award for “Aero-Meter: A Real-Time Aerosol Detection, Capture and Sterilization System,” showcasing advancements in infection control.

Additionally, **Dr. Sunil Kumar Gulia** (Department of Oral and Maxillofacial Surgery) was awarded the Young Scientist Award for his significant research contributions. These accomplishments highlight SGT University’s commitment to research excellence, innovation, and academic leadership. The university congratulates all awardees and wishes them continued success.

THE POST GRADUATES ALONG WITH THE FACULTY OF DEPARTMENT OF PERIODONTOLOGY GOT SIX BOOKS PUBLISHED IN BOOK RIVERS IN THE MONTH OF MAY 2026

GRANTS

RECEIVED A RESEARCH GRANT FROM THE HARYANA STATE HIGHER EDUCATION COUNCIL FOR THE PROJECT TITLED "DEVELOPMENT OF LAB-ON-A-CHIP PLATFORM FOR EARLY DETECTION OF ORAL SQUAMOUS CELL CARCINOMAS USING SALIVARY BIOMARKERS" BY DR. SHALINI KAPOOR AS CO-PRINCIPAL INVESTIGATORS. THE IS FUNDED WITH ₹26 LAKH ON 20TH MAR 2026.

SOCIAL INITIATIVES AND OUTREACH

Connections greater with Emotions

The Department of Public Health Dentistry, Faculty of Dental Sciences, SGT University, successfully conducted a series of 54 Outreach Screening, Awareness, and Treatment Camps in collaboration with the RELIANCE MET and the university's Marketing Team.

These camps were strategically organized across rural and semi-urban areas to enhance accessibility to essential oral healthcare services. The initiative focused on early detection of oral diseases through comprehensive screening, dissemination of oral health education, and provision of basic treatment services.

A large number of beneficiaries, including school children, elderly individuals, and underserved populations, were reached through these camps, ensuring equitable oral healthcare delivery.

The outreach activities emphasized preventive and promotive oral health by conducting interactive awareness sessions on oral hygiene practices, diet counseling, and tobacco cessation.

On-site treatments such as oral prophylaxis, minor restorative procedures, and referrals to SGT Dental College were also provided.

Overall, these camps significantly contributed to improving oral health awareness and service utilization, reflecting the institution's commitment towards community-oriented dental care and public health advancement.

Oral Health School Camp conducted on 29th April 2026 at Good Shepherd Pre-school and Daycare, Gurugram in collaboration with Department of Public Health Dentistry.

सेवाकी एक नई परिभाषा

Welfare Development & Educational Foundation of India के साथ एक संवेदनशील मुलाकात

“जन सेवा ही हमारा संकल्प।”

कुछ शब्द केवल एक वाक्य नहीं होते, वे किसी संस्था की सोच और उसके उद्देश्य को व्यक्त करते हैं। नई दिल्ली स्थित Welfare Development & Educational Foundation of India (WDEFI) की यात्रा भी इसी भावना से जुड़ी हुई है—ऐसे प्रयासों से, जहाँ समाज के लिए कुछ करने की इच्छा केवल विचार बनकर नहीं रह जाती, बल्कि लोगों तक पहुँचकर वास्तविक प्रयास का रूप लेती है।

वर्ष 2003 में स्थापित इस संस्था का उद्देश्य charitable giving को एक नई दिशा देना रहा है। शिक्षा, कल्याण और सामाजिक विकास की भावना से जुड़े ऐसे प्रयास हमें यह याद दिलाते हैं कि समाज का विकास केवल बड़ी योजनाओं से नहीं, बल्कि उन छोटे-छोटे प्रयासों से भी होता है जो किसी व्यक्ति के जीवन में सकारात्मक बदलाव ला सकें। इसी भावना के साथ जब हम WDEFI से जुड़े लोगों के बीच पहुँचे, तो यह केवल एक स्वास्थ्य गतिविधि नहीं थी। यह समाज के एक ऐसे वर्ग से मिलने का अवसर था, जिसके जीवन की परिस्थितियाँ, आवश्यकताएँ और चुनौतियाँ हमसे अलग हो सकती हैं, लेकिन जिनकी आकांक्षाएँ और सम्मान की आवश्यकता हमसे बिल्कुल अलग नहीं हैं।

सेवाका अर्थ केवल सहायता नहीं

अक्सर हम “सेवा” शब्द को सहायताया जरूरतमंद व्यक्ति को कुछ प्रदानकरने तक सीमित कर देते हैं। लेकिन वास्तविक सेवा उससे कहीं आगे है।

सेवाका अर्थ है—किसी व्यक्ति की आवश्यकता को समझना, उसे सम्मान देना और उसके जीवन को बेहतर बनाने की दिशा में उसके साथ खड़ा होना।

स्वास्थ्य सेवा भी इसी विचारका एक महत्वपूर्ण हिस्सा है।

किसी व्यक्ति के लिए डॉक्टर तक पहुँचना, अपनी समस्या बताना, जाँच करवाना और उपचार प्राप्त करना हमारे लिए सामान्य प्रक्रिया हो सकती है। लेकिन समाज के विभिन्न वर्गों के लिए स्वास्थ्य सेवाओं तक पहुँचने की परिस्थितियाँ अलग-अलग हो सकती हैं। इसलिए स्वास्थ्य सेवा का वास्तविक उद्देश्य तभी पूरा होता है, जब वह अस्पतालों और क्लिनिकों की सीमाओं से बाहर निकलकर समुदाय तक पहुँचे।

यही सामुदायिक स्वास्थ्य की सबसे महत्वपूर्ण भावना है।

मुस्कुराहट से शुरू हुआ संवाद

स्थयशिविर का वातावरण हमेशाकेवल जाँच और उपचारका नहीं होता। कईबार यह बातचीत सेशुरू होता है—एकसामान्य-सा प्रश्न, एकमुस्कान और किसी व्यक्तिकी स्वास्थ्य संबंधी छोटी-सी चिंताको ध्यान से सुनने से।

इसीतरह WDEFI के साथ हुईइस पहल में भीसंवाद सबसे महत्वपूर्ण कड़ीरहा। मौखिकस्वास्थ्य को लेकर कईऐसी आदतें हैं जिन्हें हमरोज़मर्रा की जिंदगी मेंबहुत सामान्य मानते हैं। दिन मेंकितनी बार ब्रश करनाचाहिए, ब्रश करने कासही तरीका क्या है, दाँतोंऔर मसूड़ों में होने वालेशुरुआती बदलावों को कैसे पहचानाजाए, भोजन और मौखिकस्वास्थ्य के बीच क्यासंबंध है तथा नियमितदंत-जाँच क्यों आवश्यकहै—ये बातें सरललग सकती हैं।

लेकिनइनके प्रति जागरूकता ही भविष्य कीकई दंत समस्याओं कोरोक सकती है। स्वास्थ्यजागरूकता का उद्देश्य केवलबीमारी के बारे मेंबताना नहीं, बल्कि व्यक्ति को अपने स्वास्थ्यके प्रति जिम्मेदार और आत्मनिर्भर बनाना है।

जब स्वास्थ्य संबंधी जानकारी सहज भाषा मेंसाझा की जाती है, प्रश्नों को धैर्यपूर्वक सुनाजाता है और व्यक्तिको अपनी समस्या समझनेका अवसर दिया जाताहै, तब एक स्वास्थ्यशिविर वास्तव में एक सशक्तिकरणका माध्यम बन जाता है।

शिक्षाऔर स्वास्थ्य—एक-दूसरे के पूरक

WDEFI केनाम में ही दोमहत्वपूर्ण शब्द हैं—Development और Education। शिक्षाकेवल पुस्तकों तक सीमित नहींहै। स्वास्थ्य के प्रति सहीजानकारी भी शिक्षा काही एक महत्वपूर्ण रूपहै।

एक जागरूक व्यक्ति अपने स्वास्थ्य कोबेहतर ढंग से समझसकता है, समय परचिकित्सा सहायता ले सकता हैऔर अपने परिवार मेंभी स्वस्थ आदतों को बढ़ावा देसकता है। इसलिए स्वास्थ्यशिक्षा का प्रभाव केवलएक व्यक्ति तक सीमित नहींरहता—वह धीरे-धीरेपरिवार और समुदाय तकपहुँचता है।

विशेषरूप से मौखिक स्वास्थ्यमें यह और भीमहत्वपूर्ण है। दाँतों कीसफाई जैसी छोटी-सीआदत बचपन से विकसितहो जाए, तो उसकालाभ वर्षों तक बना रहसकता है। इसलिएएक दंत स्वास्थ्य शिविरको केवल “आज की जाँच” के रूप में नहींदेखा जाना चाहिए। यहकल की बेहतर स्वास्थ्य आदतों की शुरुआत भी हो सकताहै।

समाज के साथ, समाज के लिए

इस पूरी पहल का सबसे सुंदर पक्ष यही रहा कि यहाँ स्वास्थ्य सेवा और सामाजिक सेवा एक-दूसरे से जुड़ते दिखाई दिए।

एक ओर सामाजिक संस्थासमुदाय के कल्याण और विकास के लिए कार्य कर रही है, वहीं दूसरी ओर स्वास्थ्य क्षेत्र से जुड़े पेशेवर अपनी विशेषज्ञता के माध्यम से उस प्रयास को मजबूत करने का अवसर पा रहे हैं।

यही सहयोग सामुदायिक स्वास्थ्य की वास्तविक शक्ति है।

जब अलग-अलग संस्थाएँ अपने संसाधन, ज्ञान और अनुभव को एक साझा उद्देश्य के लिए जोड़ती हैं, तो उसका प्रभाव कहीं अधिक व्यापक हो सकता है।

एक ओर किसी व्यक्तिको स्वास्थ्य संबंधी जानकारी मिलती है, दूसरी ओर उसमें अपने स्वास्थ्य के प्रति जागरूकता बढ़ती है। और सबसे महत्वपूर्ण—उसे यह एहसास होता है कि उसका स्वास्थ्य भी उतना ही महत्वपूर्ण है।

एक शिविर से आगे की कहानी

किसी भी outreach programme की सफलता केवल इस बात से नहीं मापी जानी चाहिए कि कितने लोगों की जाँच हुई। उसकी सफलता इस बात में भी है कि कितने लोगों ने अपने स्वास्थ्य के बारे में कुछ नया जाना, कितने लोगों ने अपनी किसी पुरानी समस्या को गंभीरता से लेना शुरू किया और कितने लोगों ने यह महसूस किया कि स्वास्थ्य सेवा उनके लिए भी उपलब्ध है।

WDEFI के साथ यह अनुभव हमें इसी व्यापक सोच की ओर ले जाता है।

यह एक ऐसी मुलाकात थी जिसने एक बार फिर यह समझाया कि सामुदायिक सेवा का सबसे महत्वपूर्ण आधार संवेदनशीलता है।

जब हम किसी समुदाय के बीच जाते हैं, तो हम केवल अपनी सेवाएँ लेकर नहीं जाते। हम सुनते हैं, समझते हैं, सीखते हैं और फिर अपनी भूमिका को उस आवश्यकता के अनुरूप ढालते हैं।

अंत में...

समाजको बदलने के लिए हमेशा बहुत बड़े कदमों की आवश्यकता नहीं होती। कभी-कभी एक स्वास्थ्य जाँच, एक सही सलाह, एक जागरूकता संदेश या किसी व्यक्तिकी समस्या को ध्यान से सुन लेना भी बदलावकी शुरुआत हो सकता है।

Welfare Development & Educational Foundation of India के साथ जुड़ा यह अनुभव इसी विश्वास को और मजबूत करता है कि सेवा तब सार्थक होती है,

जब वह व्यक्ति तक पहुँचती है; और स्वास्थ्य सेवा तब पूर्ण होती है,

जब उसमें उपचार के साथ जागरूकता, सम्मान और संवेदनशीलता भी शामिल हो।

हमारी यह यात्रा केवल एक कार्यक्रम नहीं थी।

यह उस विचार की ओर एक कदम था कि—

“स्वस्थ समाज केवल उपचार से नहीं, जागरूकता, शिक्षा और साथ मिलकर किए गए प्रयासों से बनता है।”

और शायद यही किसी भी सामुदायिक पहल की सबसे बड़ी उपलब्धि है—

किसी के जीवन में बदलाव लाना और साथ ही स्वयं भी कुछ सीखकर लौटना।

दृष्टिसे परे: हौसलों की वह दुनिया

ब्लाइंडस्कूल रिलीफ एसोसिएशन, नई दिल्ली की एक प्रेरक यात्रा

कभी-कभी जीवन हमें ऐसी कहानियों से रूबरू कराता है, जिन्हें देखने के लिए आँखों की नहीं, बल्कि संवेदनाओं की आवश्यकता होती है। कुछ कहानियाँ संघर्ष से शुरू होती हैं, कुछ परिस्थितियों से और कुछ ऐसी चुनौतियों से, जिन्हें सामान्य जीवन की कल्पना करनेवाला व्यक्ति शायद समझ भीन सके।

लेकिन इन कहानियों का सबसे खूबसूरत पक्ष यह है कि इनमें कठिनाइयों से कहीं अधिक हौसला होता है। नई दिल्ली स्थित ब्लाइंड स्कूल रिलीफ एसोसिएशन भी ऐसी ही अनेक कहानियों का साक्षी है—उन बच्चों और युवाओं की कहानियाँ, जिन्होंने दृष्टि की कमी को अपनी पहचान नहीं बनने दिया, बल्कि अपने सपनों को अपनी पहचान बनाया।

इनमें से प्रत्येक विद्यार्थी की यात्रा अलग है। किसी ने जन्म से ही दुनिया को आँखों से नहीं देखा, तो किसी ने बचपन में बीमारी, दुर्घटना या अन्य परिस्थितियों के कारण अपनी दृष्टि खो दी। कुछ के लिए यह बदलाव अचानक आया और जीवन की सामान्य गति को एक झटके में बदल गया। वहीं कुछ ऐसे भी हैं जिन्होंने बचपन से ही स्पर्श, आवाज़, गंध और अनुभवों के माध्यम से दुनिया को समझना सीखा।

जहाँ हमारे लिए किसी कक्षा तक पहुँचना, किताब पढ़ना या रास्ता पहचानना सामान्य बात है, वहीं इन विद्यार्थियों के लिए हर छोटी उपलब्धि के पीछे सीखने, अभ्यास और आत्मविश्वास की एक लंबी कहानी छिपी होती है।

फिर भी जब आप इस परिसर में प्रवेश करते हैं, तो सबसे पहले आपको उनकी कमी दिखाई नहीं देती—आपको दिखाई देता है उनका आत्मविश्वास।

कहीं कोई विद्यार्थी ब्रेल लिपि में पढ़ रहा है, कहीं कोई कंप्यूटर पर तकनीक की मदद से अपने अध्ययन में व्यस्त है, कहीं संगीत की मधुर धुन सुनाई देती है और कहीं विद्यार्थी अपने भविष्य को लेकर चर्चा करते दिखाई देते हैं। उनकी दुनिया अलग अवश्य है, लेकिन उनके सपने हमसे अलग नहीं हैं।

वे भी डॉक्टर बनना चाहते हैं, शिक्षक बनना चाहते हैं, प्रशासनिक सेवाओं में जाना चाहते हैं, संगीत सीखना चाहते हैं, खेलों में आगे बढ़ना चाहते हैं और अपने परिवारों के लिए गर्व का कारण बनना चाहते हैं।

फिरभी जब आप इसपरिसर में प्रवेश करते हैं, तो सबसे पहले आपको उनकी कमी दिखाई नहीं देती—आपको दिखाई देता है उनका आत्मविश्वास।

यही भावना हमें ब्लाइंड स्कूल रिलीफ एसोसिएशन की यात्रा के दौरान सबसे अधिक प्रभावित करती है। जब स्वास्थ्य सेवा पहुँचती है उन तक...

स्वास्थ्य केवल बीमारी की अनुपस्थिति नहीं है। यह व्यक्ति के आत्मविश्वास, गरिमा और जीवन की गुणवत्ता से भी जुड़ा हुआ है। विशेष रूप से मौखिक स्वास्थ्य को अक्सर हम दैनिक जीवन की भागदौड़ में नजरअंदाज कर देते हैं। लेकिन दाँत और मसूड़ों का स्वास्थ्य भी उतना ही महत्वपूर्ण है जितना शरीर के अन्य अंगों का। दृष्टिबाधित विद्यार्थियों के लिए मौखिक स्वास्थ्य के प्रति जागरूकता का महत्व और भी बढ़ जाता है। कई बार ब्रश करने की सही तकनीक को दृश्य रूप से समझना संभव नहीं होता। ऐसे में स्वास्थ्य शिक्षा को केवल देखकर नहीं, बल्कि स्पर्श, संवाद और अनुभव के माध्यम से समझाना आवश्यक हो जाता है।

यहीं से एक स्वास्थ्य शिविर केवल “जाँच और उपचार” तक सीमित नहीं रहता। वह एक संवाद बन जाता है। जब विद्यार्थियों से बातचीत की गई, तो उनके प्रश्नों में जिज्ञासा थी, उनकी बातों में आत्मविश्वास था और उनके व्यवहार में अपनापन। उन्हें मौखिक स्वास्थ्य से जुड़ी जानकारियाँ उनकी आवश्यकताओं के अनुरूप सरल भाषा में समझाई गईं। ब्रश करने की सही विधि, दाँतों की सफाई, मसूड़ों की देखभाल, भोजन की आदतों तथा नियमित दंत-जाँच के महत्व पर चर्चा की गई।

सबसे विशेष बात यह थी कि यह संवाद एकतरफा नहीं था।

हम उन्हें स्वास्थ्य के बारे में बता रहे थे, लेकिन बदले में वे हमें जीवन के बारे में बहुत कुछ सिखा रहे थे। उन्होंने हमें सिखाया कि किसी चुनौती को स्वीकार करना और उसके साथ आगे बढ़ना क्या होता है। उन्होंने बताया कि आत्मनिर्भरता केवल अपने कार्यस्वयं कर लेने का नाम नहीं, बल्कि परिस्थितियों के बावजूद अपने निर्णय स्वयं लेने का साहस भी है।

“हमें सहानुभूति नहीं, अवसर चाहिए”

इन विद्यार्थियों से मिलते हुए एक बात स्पष्ट रूप से सामने आती है—उन्हें हमारी दया की आवश्यकता नहीं है। उन्हें आवश्यकता है समान अवसरों, सम्मान और सही संसाधनों की।

समाज में दिव्यांगता को लेकर कई धारणाएँ आज भी मौजूद हैं। अक्सर हम किसी व्यक्तिकी क्षमता का आकलन उसकी शारीरिक सीमाओं के आधार पर कर लेते हैं। लेकिन ब्लाइंड स्कूल रिलीफ एसोसिएशन के विद्यार्थी इस सोच को चुनौती देते हैं।

वे बताते हैं कि किसी व्यक्ति को उसकी दृष्टि से नहीं, बल्कि उसकी दृष्टि और दृष्टिकोण से पहचानना चाहिए। उनके लिए हर दिन एक नई उपलब्धि है—नई तकनीक सीखना, स्वतंत्र रूप से यात्रा करना, अपनी पढ़ाई पूरी करना, प्रतियोगिता में भाग लेना या बस अपने भविष्य के बारे में आत्मविश्वास से बात करना। उनके जीवन में छोटी लगनेवाली उपलब्धियाँ वास्तव में बड़े संघर्षों का परिणाम हैं।

एकमुलाकात, जो हमें बदल गई

किसीभी स्वास्थ्य शिविर का वास्तविक मूल्यकेवल यह नहीं होताकि कितने लोगों की जाँच कीगई या कितने उपचारकिए गए। उसकी सफलताइस बात में भीछिपी होती है किवह लोगों के जीवन मेंकितना सकारात्मक परिवर्तन ला पाया।

ब्लाइंडस्कूल रिलीफ एसोसिएशन में बिताया गयासमय हमारे लिए भी एकसीख था। हमवहाँ स्वास्थ्य सेवा देने गएथे, लेकिन लौटते समय अपने साथबहुत कुछ लेकर आए—संवेदनशीलता, धैर्य, आत्मविश्वास और जीवन कोएक अलग दृष्टिकोण सेदेखने की प्रेरणा।

इनविद्यार्थियों की मुस्कान नेयह याद दिलाया किजीवन में देखने केलिए केवल आँखें हीपर्याप्त नहीं होतीं। कईबार सबसे खूबसूरत चीज़ेंआँखों से नहीं, दिलसे दिखाई देती हैं।

दृष्टिसे परे...

ब्लाइंडस्कूल रिलीफ एसोसिएशन के ये विद्यार्थीकेवल “दृष्टिबाधित बच्चे” नहीं हैं। वेविद्यार्थी हैं, कलाकार हैं, खिलाड़ी हैं, स्वप्नदृष्टा हैंऔर अपने भविष्य केनिर्माता हैं।

उनकीकहानी किसी कमी कीकहानी नहीं, बल्कि संभावनाओं की कहानी है।

उनकीयात्रा हमें यह संदेशदेती है कि यदिरास्ते में कोई बाधाआ जाए, तो मंज़िलबदलना आवश्यक नहीं होता—कभी-कभी केवल रास्ताबदलना पड़ता है।औरशायद यही इस पूरीयात्रा का सबसे सुंदरसंदेश है—

“दृष्टि आँखों से मिलती है, लेकिन दिशा हौसलों से।”

ब्लाइंड स्कूल रिलीफ एसोसिएशन के इन विद्यार्थियों के साथ बिताया गया समय हमें यह विश्वास दिलाता है कि जब स्वास्थ्य सेवा, शिक्षा, संवेदनशीलता और समान अवसर एक साथ आते हैं, तो वे केवल जीवन को बेहतर नहीं बनाते—वे भविष्य को बदलने की क्षमता रखते हैं।

आज भी जब उन विद्यार्थियों की मुस्कान याद आती है, तो लगता है कि उस दिन हमने उन्हें नहीं, बल्कि उन्होंने हमें देखा था—उन आँखों से, जो शायद दुनिया को नहीं देख पातीं, लेकिन दुनिया को समझने की अद्भुत क्षमता रखती हैं।

SPOTLIGHT

Memorandum of Understanding (MoU) signing between SGT University and IDA Gurugram branch

The Faculty of Dental Sciences, SGT University signed a **Memorandum of Understanding (MoU)** with the **Indian Dental Association (IDA), Gurugram Branch** on 21st May 2026 to strengthen academic collaboration, professional development, and student engagement with the dental fraternity.

The collaboration aims to provide BDS interns with enhanced exposure to private practice management, treatment planning, soft skills, financial aspects of dentistry, and modern dental technologies, thereby bridging the gap between academic learning and professional practice.

The MoU signing ceremony was graced by Dr. Ravi Batra (President), Dr. Mandeep Yadav (Secretary), and Dr. Gaurav Gupta (Treasurer), IDA Gurugram Branch. The event also featured an expert guest lecture on "Bridging Clinical Practice and Professional Excellence in Dentistry," offering valuable insights into contemporary dental practice and career development.

SPOTLIGHT

SPECIAL CASES

CASE 1

Patient named Shweta, 30yrs old came to the Department of Periodontology, with a chief complaint of receding gums. On examination it was observed that patient had shallow vestibular depth leading to improper oral hygiene maintenance which resulted in recession. Vestibuloplasty was performed using Kazanjian's technique and desired depth of 9mm was achieved after 1 month

CASE 2

Pre- operative

Intra-operative Picture

3 months post-operative

An 8-year-old male patient presented with an abnormal soft tissue attachment extending from the upper labial mucosa to the gingival tissues in relation to teeth 22 and 63, present since birth and associated with tethering of the upper lip. Clinical examination revealed a thick, fibrous unilateral frenum with restricted lip mobility and a positive blanch test on traction. A diagnosis of aberrant unilateral maxillary labial frenum attachment was established based on the clinical findings. Diode laser-assisted frenectomy was performed under local anesthesia. The procedure achieved complete release of the fibrous attachment with minimal intraoperative bleeding, a bloodless surgical field and excellent tissue visibility. Postoperative instructions regarding oral hygiene maintenance and wound care were provided. At the 10-day follow-up, satisfactory wound healing was observed. At the 3-month follow-up, complete healing, restoration of normal vestibular anatomy and improved lip mobility were observed.

SPECIAL CASES

CASE 3

Management of extrusive luxation in permanent central incisor

A 11-year-old male patient presented OPD one day after trauma with an extrusive luxation injury in permanent maxillary central incisor exhibiting Grade III mobility. The tooth was repositioned and stabilized using a flexible splint under local anaesthesia. At the one-week follow-up, signs of pulpal pathology necessitated root canal treatment. The splint was removed after two weeks, and the tooth demonstrated satisfactory stability with favourable healing. This case highlights the importance of timely repositioning, flexible splinting and appropriate endodontic management in achieving a successful outcome following extrusive luxation.

3 weeks post-operative intraoral picture

CO-CURRICULARS

Tides of Fun and Happiness

A Day to Remember at SGT University!

The campus turned into a hub of excitement as Akshay Kumar and Wamiqa Gabbi arrived for the Bhooth Bangla promotions. The grand chopper entry set the tone, followed by electrifying moments that kept the energy soaring. Amid the excitement, Akshay Kumar shared powerful insights on discipline, passion, and a healthy lifestyle — leaving students inspired. An unforgettable blend of star power, energy, and meaningful learning.

SYNERGY 2026 – FACULTY EDITION

Tides of Fun and Happiness

Campus buzzed with excitement as faculty members set up engaging stalls, showcasing their innovative projects and ideas beyond the classroom, offering a glimpse into their expertise and passion.

Students also actively contributed by setting up a variety of stalls, including food stalls, jewellery stalls, and many other creative setups, adding energy and enthusiasm to the event.

From innovative concepts to fun and interactive experiences, the event created a lively platform for learning, engagement, and inspiration, making Synergy 2026 a truly memorable experience for everyone involved.

EK BHARAT SHRESHTHA BHARAT 2026

Tides of Fun and Happiness

SGT University successfully organized the Ek Bharat Shreshtha Bharat Celebration, fostering the spirit of national integration, cultural diversity, and student engagement. The event commenced with a ceremonial lamp lighting, followed by a series of cultural and literary activities, including Apni Boli Apna Raag, Mitti Ki Dhvani, a singing competition, a folk instrumental performance, and a quiz competition.

The celebration provided a vibrant platform for students to showcase their talents while appreciating India's rich linguistic, cultural, and musical heritage. The event reinforced the ideals of unity in diversity, encouraged cultural exchange, and promoted holistic development among students, reflecting the vision of the Ek Bharat Shreshtha Bharat initiative.
