Number & Description of Beneficiaries:

Total- 11

Male- 9

Female- 2

- Residents of village enthusiastically participated in the dental camp. 11 individuals including 9 males and 2 females were examined.
- During the examinations, a number of dental problems were found, patients requiring complex treatment were referred to SGT Dental College and Hospital, Gurugram.
- Oral hygiene kits including toothbrush, toothpaste were distributed.
- Oral health education was imparted using IEC materials, demonstration of toothbrushing was also given with the help of Dentoform models.

ANNEXURE II- PROGRAM SCHEDULE

Date: *1st May, 2026*

Time: *10:00 AM onwards*

Venue: *Hassanpur*

Organized by: *Department of Public Health Dentistry in collaboration with Marketing team*

Time	Activity
10:00- 10:30 AM	Arrival & Set Up at the Venue
10:30 – 11:00 AM	Oral Health Awareness Talk
11:00 AM – 02:00 PM	Oral Screening, Consultation
02:00 – 02:30 PM	Refreshment Break
02:30 – 02:45 PM	Interactive Session and Distribution of Oral Hygiene Kits
02:45 – 03:00 PM	Group Photograph
03:00 PM onwards	Departure

ANNEXURE III- EVENT HIGHLIGHTS

- Comprehensive oral health screening of residents by the team from the Department of Public Health Dentistry
- Personalized consultations offering advice on oral hygiene maintenance, denture care, and dietary habits.
- Awareness session on the importance of oral health in maintaining overall systemic health among older adults.
- Distribution of oral hygiene kits including toothbrushes, toothpaste, and educational pamphlets.
- Interactive and recreational activities to foster emotional connection and well-being among the elderly residents.
- Collaborative effort between SGT University and Help Age India promoting social responsibility and community engagement.
- Student participation and experiential learning through field-based public health practice.

ANNEXURE IV- EVENT POSTER/BANNER/INVITATION CARD/LETTER

ANNEXURE V- OUTCOMES / IMPACT

- **Enhanced Oral Health Awareness:**

The event aimed to sensitize older adults about the importance of maintaining good oral hygiene, regular dental checkups, and the relationship between oral health and general well-being.

- **Education on Oral Hygiene Practices:**

Participants received practical demonstrations on effective toothbrushing techniques, denture hygiene maintenance, and use of appropriate oral hygiene aids.

- **Early Detection of Dental Problems:**

Through oral screening, the team identified common age-related dental conditions such as dental caries, gum diseases, oral mucosal lesions, and denture-related issues, enabling timely referrals for further management.

- **Promotion of Healthy Dietary Habits:**

Counseling sessions emphasized the importance of a balanced, non-cariogenic diet to maintain both oral and general health among the elderly.

- **Distribution of Oral Hygiene Kits:**

Toothbrushes, toothpaste, and medicines were distributed to promote continuity of oral hygiene practices at home.

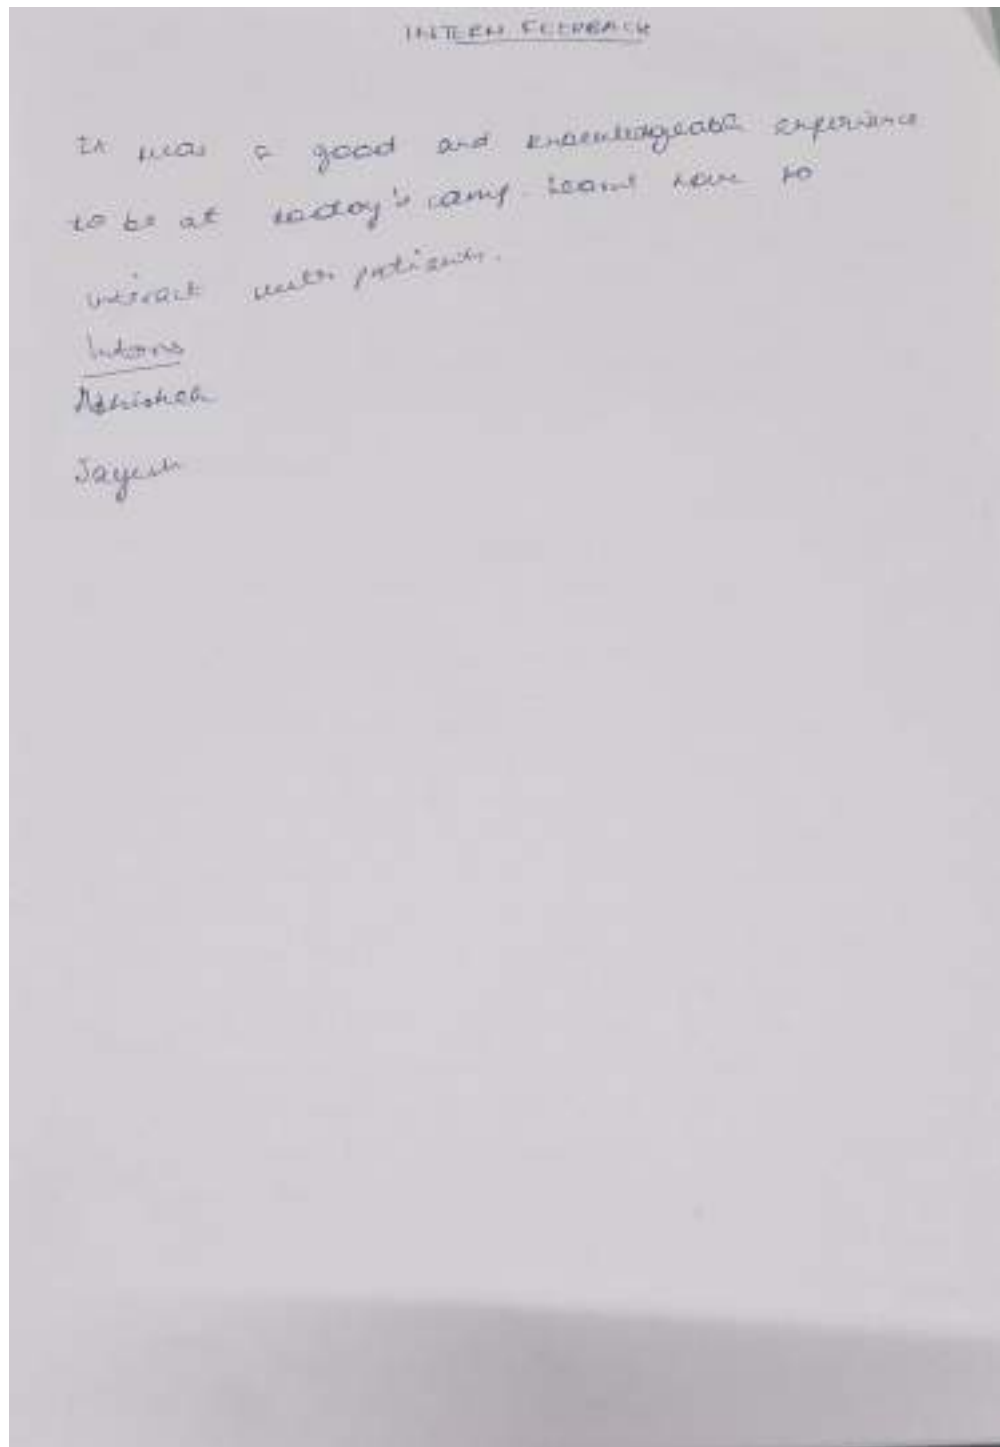

- **Improved Access to Oral Health Services:**

By bringing dental screening and preventive care directly to the old age home, the event bridged the gap between healthcare providers and a vulnerable, underserved population.

- **Student and Faculty Engagement:**

The event served as a valuable experiential learning opportunity for dental students and faculty, enhancing their understanding of oral health challenges in real-world settings.

ANNEXURE VIII- CONCLUSIONS

The camp activity organized at **Hassanpur in collaboration with Marketing team** successfully fulfilled its objective of promoting oral health awareness, delivering preventive dental care as well as providing basic treatment. The event created a meaningful impact by empowering residents with essential knowledge on maintaining oral hygiene, enabling early detection of dental issues, and providing easily accessible basic treatment services within their community setting.

ANNEXURE IX-ACKNOWLEDGMENTS

The Department of Public Health Dentistry, **Faculty of Dental Sciences, SGT University**, extends heartfelt gratitude to all individuals and organizations whose support made the outreach activity a success.

We express our sincere appreciation to the **University Management** for their continuous encouragement and institutional support in promoting community outreach initiatives. Special thanks to **Marketing team**, for their cooperation and participation in this noble endeavor.

We acknowledge the dedicated efforts of the **faculty members, postgraduate students, interns, and undergraduate volunteers** from the Department of Public Health Dentistry, whose enthusiasm and teamwork ensured smooth coordination and successful execution of all activities.

Gratitude is also extended to the **supporting staff** for their logistical assistance, setup, and on-ground arrangements throughout the event.

Lastly, we thank all **participants and residents** for their active involvement, warm interaction, and trust, which truly made this event meaningful and impactful.

Event Highlights

The Department of Public Health Dentistry organised a dental camp at Scholars Global School, Bahadurgarh, on May 04, 2026. The camp was organised through the collaborative efforts of the SGT Marketing Team. School students aged 6-12 were screened, including 229 males and 250 females. During the examinations, several dental problems were identified, allowing for prompt intervention and treatment. The camp helped avert more severe oral health issues by addressing them early.

Annexure 9

Conclusion

The camp successfully achieved its goals of raising community awareness about oral health issues and providing vital dental care. People who needed advanced dental care were referred to the main campus Dental Clinics with a Blue and Yellow Referral Slip, through which they could avail themselves of waivers on their nominal payments towards various dental procedures. Sample Toothpastes, Mouthwashes, and Toothbrushes were distributed as goodwill to all patients and others who were examined at the camp.

Annexure 10

Acknowledgment

The Department of Public Health Dentistry, Faculty of Dental Sciences, SGT University, extends heartfelt gratitude to all individuals and organisations whose support made the event a success. We express our Special thanks to Management for their cooperation and active participation in this noble endeavour. We acknowledge the dedicated efforts of the faculty members, postgraduate students from other departments, interns, and support staff members from the Department of Public Health Dentistry, whose enthusiasm and teamwork ensured smooth coordination and successful execution of all activities.

- Children of Scholars Global school, Gurugram enthusiastically participated in the dental camp. 648 students including 369 males and 279 females were examined.
- During the examinations, a number of dental problems were found, patients requiring complex treatment were referred to SGT Dental College and Hospital, Gurugram.
- Oral hygiene kits including toothbrush, toothpaste were distributed.
- Oral health education was imparted using IEC materials, demonstration of toothbrushing was also given with the help of Dentoform models.

ANNEXURE II- PROGRAM SCHEDULE

Date: 5th May, 2026

Time: 9:00 AM onwards

Venue: Scholars Global school, Gurugram

Organized by: Department of Public Health Dentistry in collaboration with Marketing team

Time	Activity
10:00- 10:30 AM	Arrival & Set Up at the Venue
10:30 – 11:00 AM	Oral Health Awareness Talk
11:00 AM – 02:00 PM	Oral Screening, Consultation
02:00 – 02:30 PM	Refreshment Break
02:30 – 02:45 PM	Interactive Session and Distribution of Oral Hygiene Kits
02:45 – 03:00 PM	Group Photograph
03:00 PM onwards	Departure

ANNEXURE III- EVENT HIGHLIGHTS

- Comprehensive oral health screening of residents by the team from the Department of Public Health Dentistry
- Personalized consultations offering advice on oral hygiene maintenance, denture care, and dietary habits.
- Awareness session on the importance of oral health in maintaining overall systemic health among students.
- Distribution of oral hygiene kits including toothbrushes, toothpaste, and educational pamphlets.
- Interactive and recreational activities to foster emotional connection and well-being among the students.
- Collaborative effort between SGT University and Nursing department promoting social responsibility and community engagement.
- Student participation and experiential learning through field-based public health practice.

ANNEXURE IV- EVENT POSTER/BANNER/INVITATION CARD/LETTER

ANNEXURE V- OUTCOMES / IMPACT

- **Enhanced Oral Health Awareness:**

The event aimed to sensitize older adults about the importance of maintaining good oral hygiene, regular dental checkups, and the relationship between oral health and general well-being.

- **Education on Oral Hygiene Practices:**

Participants received practical demonstrations on effective toothbrushing techniques, denture hygiene maintenance, and use of appropriate oral hygiene aids.

- **Early Detection of Dental Problems:**

Through oral screening, the team identified common age-related dental conditions such as dental caries, gum diseases, oral mucosal lesions, and denture-related issues, enabling timely referrals for further management.

- **Promotion of Healthy Dietary Habits:**

Counseling sessions emphasized the importance of a balanced, non-cariogenic diet to maintain both oral and general health among the elderly.

- **Distribution of Oral Hygiene Kits:**

Toothbrushes, toothpaste, and medicines were distributed to promote continuity of oral hygiene practices at home.

- **Improved Access to Oral Health Services:**

By bringing dental screening and preventive care directly to the old age home, the event bridged the gap between healthcare providers and a vulnerable, underserved population.

- **Student and Faculty Engagement:**

The event served as a valuable experiential learning opportunity for dental students and faculty, enhancing their understanding of oral health challenges in real- world settings.

ANNEXURE VIII- CONCLUSIONS

The camp activity organized at **Scholars Global school , Gurugram** successfully fulfilled its objective of promoting oral health awareness, delivering preventive dental care as well as providing basic treatment. The event created a meaningful impact by empowering residents with essential knowledge on maintaining oral hygiene, enabling early detection of dental issues, and providing easily accessible basic treatment services within their community setting.

ANNEXURE IX-ACKNOWLEDGMENTS

The Department of Public Health Dentistry, **Faculty of Dental Sciences, SGT University**, extends heartfelt gratitude to all individuals and organizations whose support made the outreach activity a success.

We express our sincere appreciation to the **University Management** for their continuous encouragement and institutional support in promoting community outreach initiatives. Special thanks to **Marketing team**, for their cooperation and participation in this noble endeavor.

We acknowledge the dedicated efforts of the **faculty members, postgraduate students, interns, and undergraduate volunteers** from the Department of Public Health Dentistry, whose enthusiasm and teamwork ensured smooth coordination and successful execution of all activities.

Gratitude is also extended to the **supporting staff** for their logistical assistance, setup, and on-ground arrangements throughout the event.

Lastly, we thank all **participants and residents** for their active involvement, warm interaction, and trust, which truly made this event meaningful and impactful.

ANNEXURE 4- EVENT HIGHLIGHTS

The Department of Public Health Dentistry, Faculty of Dental Sciences, in collaboration with the Marketing Department, SGT University, under the aegis of Samajik Vikas SGT Ka Prayas (SVSP), conducted a comprehensive dental check-up and oral health awareness camp on 6th May 2026 at Bhangrola Village, Gurugram District, Haryana.

The camp was organized with the objective of promoting oral health awareness among rural communities and facilitating comprehensive dental screening for the early detection and prevention of oral diseases. The initiative aimed to encourage healthy oral hygiene practices, improve oral health literacy, and enhance access to preventive dental care services among villagers.

A total of 15 individuals attended the OPD. Oral examinations revealed the presence of common dental conditions such as dental caries, extrinsic stains, swollen and bleeding gums, dentinal sensitivity, and poor oral hygiene status. A few participants were identified as requiring further diagnostic evaluation and treatment. The screening findings also highlighted the prevalence of tobacco use among some individuals, underscoring the need for continued tobacco cessation education and counselling.

The dental team conducted comprehensive oral health assessments and provided personalized consultations to the participants. Demonstrations on proper tooth-brushing techniques were conducted, and interactive educational sessions focused on the importance of maintaining good oral hygiene, adopting healthy dietary habits, and understanding the adverse effects of tobacco on oral and general health. Participants were motivated to practice preventive oral healthcare measures and seek timely professional dental care.

To support long-term oral health maintenance, oral hygiene kits were distributed to the beneficiaries. Concession cards for treatment at SGT Dental Hospital were also provided to facilitate affordable access to specialized dental care and follow-up treatment. The villagers actively participated in the camp and expressed their appreciation for the services and health education provided by the dental team. The outreach activity contributed to strengthening community engagement and reaffirmed SGT University's commitment to promoting preventive oral healthcare, early disease detection, and improved oral health outcomes among rural populations.

ANNEXURE 5- EVENT BANNER

ANNEXURE 6- OUTCOMES / IMPACT

The dental camp at Bhangrola Village, Gurugram, had a positive impact in enhancing oral health awareness and promoting preventive dental care among the rural population. The initiative successfully provided a platform for community members to access basic oral healthcare services and receive education on maintaining good oral hygiene practices.

Through the screening of 15 individuals, several common oral health problems, including dental caries, gingival inflammation, stains, dentinal sensitivity, and poor oral hygiene status, were identified. Early detection of these conditions enabled timely counselling, guidance on preventive measures, and referral for further diagnostic evaluation and treatment when required.

The camp facilitated personalized interactions between the dental team and participants, allowing for a better understanding of individual oral health concerns and reinforcing the importance of regular dental check-ups. Participants were educated on proper oral hygiene practices, including effective tooth-brushing techniques and the role of healthy dietary habits in preventing oral diseases.

Tobacco use was identified among some attendees, and focused counselling sessions were conducted to raise awareness about the harmful effects of tobacco on oral and general health. These sessions aimed to encourage behaviour modification and support tobacco cessation efforts within the community.

The distribution of oral hygiene kits served as a practical measure to promote the adoption of healthy oral hygiene practices, while concession referral cards to SGT Dental Hospital facilitated access to affordable follow-up care and specialized dental treatment.

Overall, the camp contributed to improving oral health literacy, encouraging preventive healthcare-seeking behaviour, and facilitating the early identification of oral diseases. The activity highlighted the significance of sustained community-based outreach programs in strengthening oral health promotion and improving access to dental care services in rural areas.

ANNEXURE 7- PHOTOS (GEOTAG) AS ATTACHMENT

ANNEXURE 8- CONCLUSION

The oral health screening and awareness camp conducted at Bhangrola Village, Gurugram, Haryana, served as an important community outreach initiative aimed at addressing oral healthcare needs and promoting preventive oral health practices among the rural population. The camp facilitated meaningful engagement with community members and enhanced awareness regarding the significance of oral health as a vital component of overall health and well-being.

By providing comprehensive oral health screening, individualized counselling, and preventive health education at the community level, the initiative contributed to the early identification of common oral diseases and encouraged timely utilization of dental care services. The activity also promoted positive health-seeking behaviour by empowering participants with knowledge and practical skills necessary for maintaining good oral hygiene and preventing oral diseases.

The camp highlighted the importance of integrating oral health promotion with community-based healthcare initiatives to achieve sustainable improvements in population health. Through oral health education, tobacco cessation counselling, and facilitation of access to affordable follow-up care, the program reinforced the value of preventive dentistry and community participation in achieving better oral health outcomes.

Overall, the camp reflects the continued commitment of the Department of Public Health Dentistry, Faculty of Dental Sciences, SGT University, towards advancing community-oriented dental services, reducing oral health disparities, and strengthening preventive oral healthcare delivery among underserved rural populations.

ANNEXURE 9-ACKNOWLEDGMENTS

The Department of Public Health Dentistry, Faculty of Dental Sciences, SGT University, extends its sincere gratitude to all individuals and stakeholders whose support and cooperation contributed to the successful conduct of the oral health screening and awareness camp at Bhangrola Village, Gurugram, Haryana.

We would like to express our appreciation to the villagers for their enthusiastic participation and cooperation throughout the camp. Their active involvement in the oral health screening and educational activities played a significant role in achieving the objectives of the program and promoting oral health awareness within the community.

The camp was conducted under the guidance of Dr. Charu Khurana, Associate Professor and Head, Department of Public Health Dentistry, whose leadership, encouragement, and commitment were instrumental in the successful planning and execution of the activity. We also acknowledge the dedicated efforts of BDS Interns Ms. Divyani, Mr. Anil, and Ms. Kayva, along with the valuable support of Mr. Sunil (Non-Teaching Staff), whose teamwork, professionalism, and active participation ensured the smooth functioning of all camp activities, including oral health screening, patient counselling, health education, and distribution of oral hygiene kits.

We further extend our gratitude to the Marketing Department, SGT University, and the Samajik Vikas SGT Ka Prayas (SVSP) initiative for their valuable support in facilitating this community outreach program.

The collective efforts of all stakeholders contributed significantly to enhancing oral health awareness, encouraging preventive healthcare practices, and improving access to dental care services among the rural population. Such collaborative initiatives continue to strengthen the Department's commitment to community-oriented dental services and public health promotion.

EVENT HIGHLIGHTS

On 7th May 2026, the **Department of Public Health Dentistry**, Faculty of Dental Sciences, SGT University, organized an Outreach **Activity- Oral Health Check Up Camp at Kheri Dosa, Nuh, Haryana.**

The event aimed to promote oral hygiene awareness and provide preventive and curative dental services at outreach set-up.

Screening of total **10 patients (males- 03; females -07)** were done in the camp. The team conducted **demonstrations of correct tooth-brushing techniques, oral hygiene education sessions**, as well as **one-to-one consultations**, followed by the **oral health education talk** on correct brushing techniques, the right choice of toothbrush and toothpaste, and the importance of maintaining a balanced diet for healthy teeth. This outreach activity encouraged everyone to develop the **importance of adapting good oral hygiene in everyday practices.**

The camp successfully enhanced oral health awareness among the participants, emphasizing the university's ongoing commitment to community outreach and preventive dental care. There was **active participation of all the team members**, providing them valuable **field-based public health practice and experiential learning opportunities.**

ANNEXURE – 5

EVENT BANNER

ANNEXURE – 6

OUTCOMES / IMPACT

- **Enhanced Oral Health Awareness:**

The event aimed to promote oral hygiene awareness via outreach activity. The initiative aimed to promote oral health awareness and provide preventive and curative dental services at outreach set-up. In end the importance of maintaining good oral hygiene, regular dental checkups, and the relationship between oral health and general well-being was delivered.

- **Education on Oral Hygiene Practices:**

Participants received practical demonstrations on effective toothbrushing techniques, denture hygiene maintenance, and use of appropriate oral hygiene aids.

- **Early Detection of Dental Problems:**

Through oral screening, the dental team identified common age-related dental conditions such as dental caries, gum diseases, oral mucosal lesions, enabling timely referrals for further management.

- **Preventive and Basic Treatment Services:**

The team conducted demonstrations of correct tooth-brushing techniques, oral hygiene education sessions, as well as one-to-one consultations, followed by the oral health education talk on correct brushing techniques, the right choice of toothbrush and toothpaste, and the importance of maintaining a balanced diet for healthy teeth.

- **Distribution of Oral Hygiene Kits:**

Toothbrushes, toothpaste, and awareness leaflets were distributed to promote continuity of oral hygiene practices.

- **Improved Access to Oral Health Services:**

By bringing dental screening to the participants of on **7th May 2026**, the **Department of Public Health Dentistry**, Faculty of Dental Sciences, SGT University organized an Outreach **Activity- Oral Health Check Up Camp at Kheri Dosa, Nuh, Haryana**.

The event bridged the gap between healthcare providers and the patients who are in need of oral health checkup.

- **Student and Faculty Engagement:**

The event served as a valuable experiential learning opportunity for dental students and faculty, enhancing their understanding of oral health challenges in real- world.

7.	2:30 PM	Departure from Camp Site
8.	3:00 PM	Arrival at Campus & Dispersal

ANNEXURE 4- EVENT HIGHLIGHTS

The **Department of Public Health Dentistry**, Faculty of Dental Sciences, SGT University, organized a **dental health screening camp on 08th May, 2026 at Basai Enclave, Haryana**. The initiative aimed to promote oral health awareness.

A total of **approximately 27 patients** were screened, of whom **13 were males and 14 were females**. The team conducted **oral hygiene education sessions**, including **demonstrations of correct tooth-brushing techniques**, and the **importance of maintaining good oral hygiene**.

All the patients who required any kind of dental services **were referred to SGT Dental Hospital** with **concessional referral slips**.

The camp successfully enhanced oral health awareness, emphasizing the university's ongoing commitment to community outreach and preventive dental care. There was **active participation of interns**, providing them valuable **field-based public health practice and experiential learning opportunities**.

ANNEXURE 5- EVENT BANNER

ANNEXURE 6- OUTCOMES / IMPACT

- **Enhanced Oral Health Awareness:**

The event aimed to sensitize the residents of basai enclave about the importance of maintaining good oral hygiene, the need for regular dental check-ups, and the connection between oral health and overall well-being.

- **Education on Oral Hygiene Practices:**

Residents of basai enclave received practical demonstrations on effective toothbrushing techniques, and use of appropriate oral hygiene aids.

- **Early Detection of Dental Problems:**

Through oral screening, the dental team identified common dental conditions such as dental caries, gum diseases, enabling timely referrals for further management.

- **Promotion of Healthy Dietary Habits:**

Counseling sessions emphasized the importance of a balanced, non-cariogenic diet to maintain both oral and general health.

- **Distribution of Oral Hygiene Kits:**

Toothbrushes, toothpaste, and awareness leaflets were distributed to promote continuity of oral hygiene practices.

- **Improved Access to Oral Health Services:**

By bringing dental screening to the Residents of basai enclave, the event bridged the gap between healthcare providers and a vulnerable.

- **Intern Engagement:**

The event served as a valuable experiential learning opportunity for Intern students, enhancing their understanding of oral health challenges in real- world settings.

ANNEXURE 7-FEEDBACKS

① The camp organized at Taddai was very good. The place was nice and people are cooperative and friendly. People actively participated in the camp and show enthusiasm. I really enjoyed this camp and looking forward for further such camps.

② The camp was very nice. The place was good and people were very kind and cooperatives. All facilities are available at the camp site.

ANNEXURE 9- CONCLUSION

The Oral Health Screening at Basai Enclave, Haryana successfully fulfilled its objective of promoting oral health awareness and delivering oral health education talk on correct brushing techniques, the right choice of toothbrush and toothpaste, and the importance of maintaining a balanced diet for healthy teeth among residents of the basai enclave. In the end Oral Hygiene kits comprising Toothbrushes and Toothpastes were distributed.

ANNEXURE 10-ACKNOWLEDGMENTS

The Department of Public Health Dentistry, Faculty of Dental Sciences, SGT University organized a dental camp on **08th May, 2026 at Basai Enclave, Haryana.**

The Department of Public Health Dentistry, Faculty of Dental Sciences, SGT University, extends heartfelt gratitude to all individuals and organizations whose support made the event a success. We express our Special thanks to the residents of the **Basai Enclave, Haryana** for their cooperation and active participation in this noble endeavor.

The initiative took place under the guidance of Dr. Charu Khurana (Associate Professor and Head, Department of Public Health Dentistry).

The dental team was headed by interns- Harsh, Bhawna and Supporting Staff – Mr. Sunil.

Our department extends gratitude to each member whose enthusiasm and teamwork ensured smooth coordination and successful execution of all activities. With the involvement of every single member of the dental team and their enormous efforts, health education and health promotion were achieved at its best.

ANNEXURE III- EVENT HIGHLIGHTS

- Comprehensive oral health screening of participants by the team from the Department of Public Health Dentistry.
- Personalized consultations offer advice on oral hygiene maintenance, denture care, and dietary habits.
- Awareness session on the importance of oral health in maintaining overall systemic health among participants.
- Distribution of oral hygiene kits including toothbrushes, toothpaste, and educational pamphlets.
- Interactive and recreational activities to foster emotional connection and well-being among the participants.
- Collaborative effort between SGT University and SGT Marketing Team promoting social responsibility and community engagement.
- Student participation and experiential learning through field-based public health practice.

ANNEXURE IV- EVENT POSTER/BANNER/INVITATION CARD/LETTER

ANNEXURE V- OUTCOMES / IMPACT

- **Enhanced Oral Health Awareness:**

The event aimed to sensitize the participants about the importance of maintaining good oral hygiene, regular dental checkups, and the relationship between oral health and general well-being.

- **Education on Oral Hygiene Practices:**

Participants received practical demonstrations on effective toothbrushing techniques, denture hygiene maintenance, and use of appropriate oral hygiene aids.

- **Early Detection of Dental Problems:**

Through oral screening, the team identified common age-related dental conditions such as dental caries, gum diseases, oral mucosal lesions, enabling timely referrals for further management.

- **Promotion of Healthy Dietary Habits:**

Counseling sessions emphasized the importance of a balanced, non-cariogenic diet to maintain both oral and general health.

- **Distribution of Oral Hygiene Kits:**

Toothbrushes, toothpaste, and awareness leaflets were distributed to promote continuity of oral hygiene practices at home.

- **Improved Access to Oral Health Services:**

By bringing dental screening and preventive care directly to the camp site, the event bridged the gap between healthcare providers and a vulnerable, underserved population.

- **Student and Faculty Engagement:**

The event served as a valuable experiential learning opportunity for dental students, enhancing their understanding of oral health challenges in real-world settings.

ANNEXURE VIII- CONCLUSIONS

The outreach activity successfully fulfilled its objective of promoting oral health awareness and delivering preventive dental care among the participants. The event created a positive impact by empowering participants with knowledge about maintaining oral hygiene, facilitating early identification of dental problems, and providing accessible basic treatment services within their residential setting.

ANNEXURE IX-ACKNOWLEDGMENTS

The Department of Public Health Dentistry, **Faculty of Dental Sciences, SGT University**, extends heartfelt gratitude to all individuals and SGT Marketing Team whose support made the event a success.

We acknowledge the dedicated efforts of the **faculty members**, and interns whose enthusiasm and teamwork ensured smooth coordination and successful execution of all activities.

Gratitude is also extended to the **supporting staff** for their setup, and on-ground arrangements throughout the event.

Lastly, we thank all **participants** for their active involvement, warm interaction, and trust, which truly made this event meaningful and impactful.

Event Highlights

The Department of Public Health Dentistry organised a dental camp at Village Uleta, Nuh, May 13, 2026. The camp was organised through the collaborative efforts of the SGT Marketing Team. People of all ages were screened, including 10 males and 6 females. During the examinations, several dental problems were identified, allowing for prompt intervention and treatment. The camp helped avert more severe oral health issues by addressing them early.

Annexure 9

Conclusion

The camp successfully achieved its goals of raising community awareness about oral health issues and providing vital dental care. People who needed advanced dental care were referred to the main campus Dental Clinics with a Blue and Yellow Referral Slip, through which they could avail themselves of waivers on their nominal payments towards various dental procedures. Sample Toothpastes, Mouthwashes, and Toothbrushes were distributed as goodwill to all patients and others who were examined at the camp.

ANNEXURE 4- EVENT HIGHLIGHTS

The Department of Public Health Dentistry, Faculty of Dental Sciences, in collaboration with the Marketing Department, SGT University, under the aegis of Samajik Vikas SGT Ka Prayas (SVSP), conducted a comprehensive dental check-up and oral health awareness camp on 14th May 2026 at Babupur Village, Sector-108, Gurugram, Haryana.

The camp was organized with the objective of promoting oral health awareness among rural communities and facilitating comprehensive dental screening for the early detection and prevention of oral diseases. The initiative aimed to encourage healthy oral hygiene practices, improve oral health literacy, and enhance access to preventive dental care services among villagers.

A total of 21 individuals attended the OPD, including 9 males and 12 females. Oral examinations revealed the presence of common dental conditions such as dental caries, extrinsic stains, gingival inflammation, bleeding gums, dentinal sensitivity, and poor oral hygiene status. Tobacco use was observed among some participants, highlighting the need for continued tobacco cessation counselling and preventive oral healthcare interventions. A few individuals were identified as requiring further diagnostic evaluation and treatment.

The dental team conducted comprehensive oral health assessments and provided individualized consultations to all participants. Demonstrations of proper tooth-brushing techniques were carried out to reinforce effective oral hygiene practices. Interactive oral health education sessions focused on the importance of maintaining oral hygiene, adopting healthy dietary habits, preventing dental diseases, and understanding the harmful effects of tobacco use on oral and general health.

To encourage long-term oral health maintenance, oral hygiene kits were distributed among the beneficiaries. Concession referral cards for treatment at SGT Dental Hospital were also provided to facilitate affordable access to specialized dental care and follow-up treatment. The villagers actively participated in the camp activities and appreciated the efforts of the dental team in bringing essential oral healthcare services to their community.

The outreach activity strengthened community engagement and reaffirmed SGT University's commitment to promoting preventive oral healthcare, early disease detection, and improved oral health outcomes among underserved populations.

ANNEXURE 5- EVENT BANNER

ANNEXURE 6- OUTCOMES / IMPACT

The oral health screening and awareness camp at Babupur Village, Sector-108, Gurugram, had a positive impact in promoting oral health awareness and preventive dental care among the local community. The initiative provided an opportunity for residents to access basic oral healthcare services and receive education regarding the importance of maintaining good oral hygiene practices.

Through the screening of 21 individuals, common oral health problems such as dental caries, gingival inflammation, stains, dentinal sensitivity, and poor oral hygiene were identified. Early detection of these conditions enabled timely counselling, preventive guidance, and appropriate referrals for further evaluation and treatment where required.

The camp facilitated personalized interactions between the dental team and participants, helping to address individual oral health concerns and reinforce the importance of regular dental check-ups. Educational sessions and demonstrations of proper tooth-brushing techniques enhanced participants' understanding of effective plaque control measures and healthy lifestyle practices essential for maintaining oral health.

Tobacco use was observed among some attendees, and targeted counselling was provided to increase awareness about its harmful effects on oral and general health. These interventions aimed to encourage positive behavioural changes and support tobacco cessation efforts within the community.

The distribution of oral hygiene kits promoted the adoption of good oral hygiene practices, while concession referral cards for SGT Dental Hospital facilitated access to affordable follow-up care and specialized dental treatment services. Overall, the camp contributed to improving oral health literacy, encouraging preventive healthcare-seeking behaviour, and facilitating the early identification of oral diseases. The activity highlighted the importance of sustained community outreach programs in enhancing oral health awareness and improving access to dental care services among rural and underserved populations.

ANNEXURE 7- PHOTOS (GEOTAG) AS ATTACHMENT

ANNEXURE 8- CONCLUSION

The oral health screening and awareness camp conducted at Babupur Village, Sector-108, Gurugram, Haryana, served as a valuable community outreach initiative aimed at promoting oral health awareness and addressing the oral healthcare needs of the local population. The camp facilitated meaningful interaction with community members and reinforced the importance of oral health as an essential component of overall health and well-being.

Through comprehensive oral health screening, individualized counselling, and preventive health education, the initiative contributed to the early identification of common oral diseases and encouraged timely utilization of dental care services. The activity also promoted positive health-seeking behaviour by empowering participants with the knowledge and skills required to maintain good oral hygiene and prevent oral diseases.

The camp underscored the importance of integrating oral health promotion with community-based healthcare initiatives to achieve sustainable improvements in public health. Through oral health education, tobacco cessation counselling, and facilitation of affordable follow-up care, the program reinforced the significance of preventive dentistry and community participation in improving oral health outcomes.

Overall, the camp reflects the continued commitment of the Department of Public Health Dentistry, Faculty of Dental Sciences, SGT University, towards strengthening community-oriented dental services, reducing oral health disparities, and advancing preventive oral healthcare among underserved populations.

ANNEXURE 9-ACKNOWLEDGMENTS

The Department of Public Health Dentistry, Faculty of Dental Sciences, SGT University, extends its sincere gratitude to all individuals and stakeholders whose support and cooperation contributed to the successful conduct of the oral health screening and awareness camp at Babupur Village, Sector-108, Gurugram, Haryana.

We would like to express our appreciation to the villagers for their active participation and cooperation throughout the camp. Their enthusiastic involvement in the oral health screening and educational activities significantly contributed to the success and impact of the initiative.

The camp was conducted under the guidance of Dr. Charu Khurana, Associate Professor and Head, Department of Public Health Dentistry, whose leadership and encouragement were instrumental in the planning and execution of the activity. We also acknowledge the dedicated efforts of BDS Interns Ms. Kavya and Ms. Ishita, along with the valuable support of Mr. Aparn (Non-Teaching Staff), whose commitment, teamwork, and active participation ensured the smooth conduct of all camp activities, including oral health screening, patient counselling, health education, and distribution of oral hygiene kits.

We further extend our gratitude to the Marketing Department, SGT University, and the Samajik Vikas SGT Ka Prayas (SVSP) initiative for their valuable support in facilitating this community outreach program.

The collective efforts of all stakeholders played a vital role in enhancing oral health awareness, promoting preventive healthcare practices, and improving access to dental care services within the community. Such collaborative initiatives continue to strengthen the Department's commitment to community-based oral healthcare and public health promotion.

ANNEXURE III- EVENT HIGHLIGHTS

- Comprehensive oral health screening of residents by the team from the Department of Public Health Dentistry
- Personalized consultations offering advice on oral hygiene maintenance, denture care, and dietary habits.
- Awareness session on the importance of oral health in maintaining overall systemic health among students.
- Distribution of oral hygiene kits including toothbrushes, toothpaste, and educational pamphlets.
- Interactive and recreational activities to foster emotional connection and well-being among the students.
- Collaborative effort between SGT University and Nursing department promoting social responsibility and community engagement.
- Student participation and experiential learning through field-based public health practice.

ANNEXURE IV- EVENT POSTER/BANNER/INVITATION CARD/LETTER

ANNEXURE V- OUTCOMES / IMPACT

- **Enhanced Oral Health Awareness:**

The event aimed to sensitize older adults about the importance of maintaining good oral hygiene, regular dental checkups, and the relationship between oral health and general well-being.

- **Education on Oral Hygiene Practices:**

Participants received practical demonstrations on effective toothbrushing techniques, denture hygiene maintenance, and use of appropriate oral hygiene aids.

- **Early Detection of Dental Problems:**

Through oral screening, the team identified common age-related dental conditions such as dental caries, gum diseases, oral mucosal lesions, and denture-related issues, enabling timely referrals for further management.

- **Promotion of Healthy Dietary Habits:**

Counseling sessions emphasized the importance of a balanced, non-cariogenic diet to maintain both oral and general health among the elderly.

- **Distribution of Oral Hygiene Kits:**

Toothbrushes, toothpaste, and medicines were distributed to promote continuity of oral hygiene practices at home.

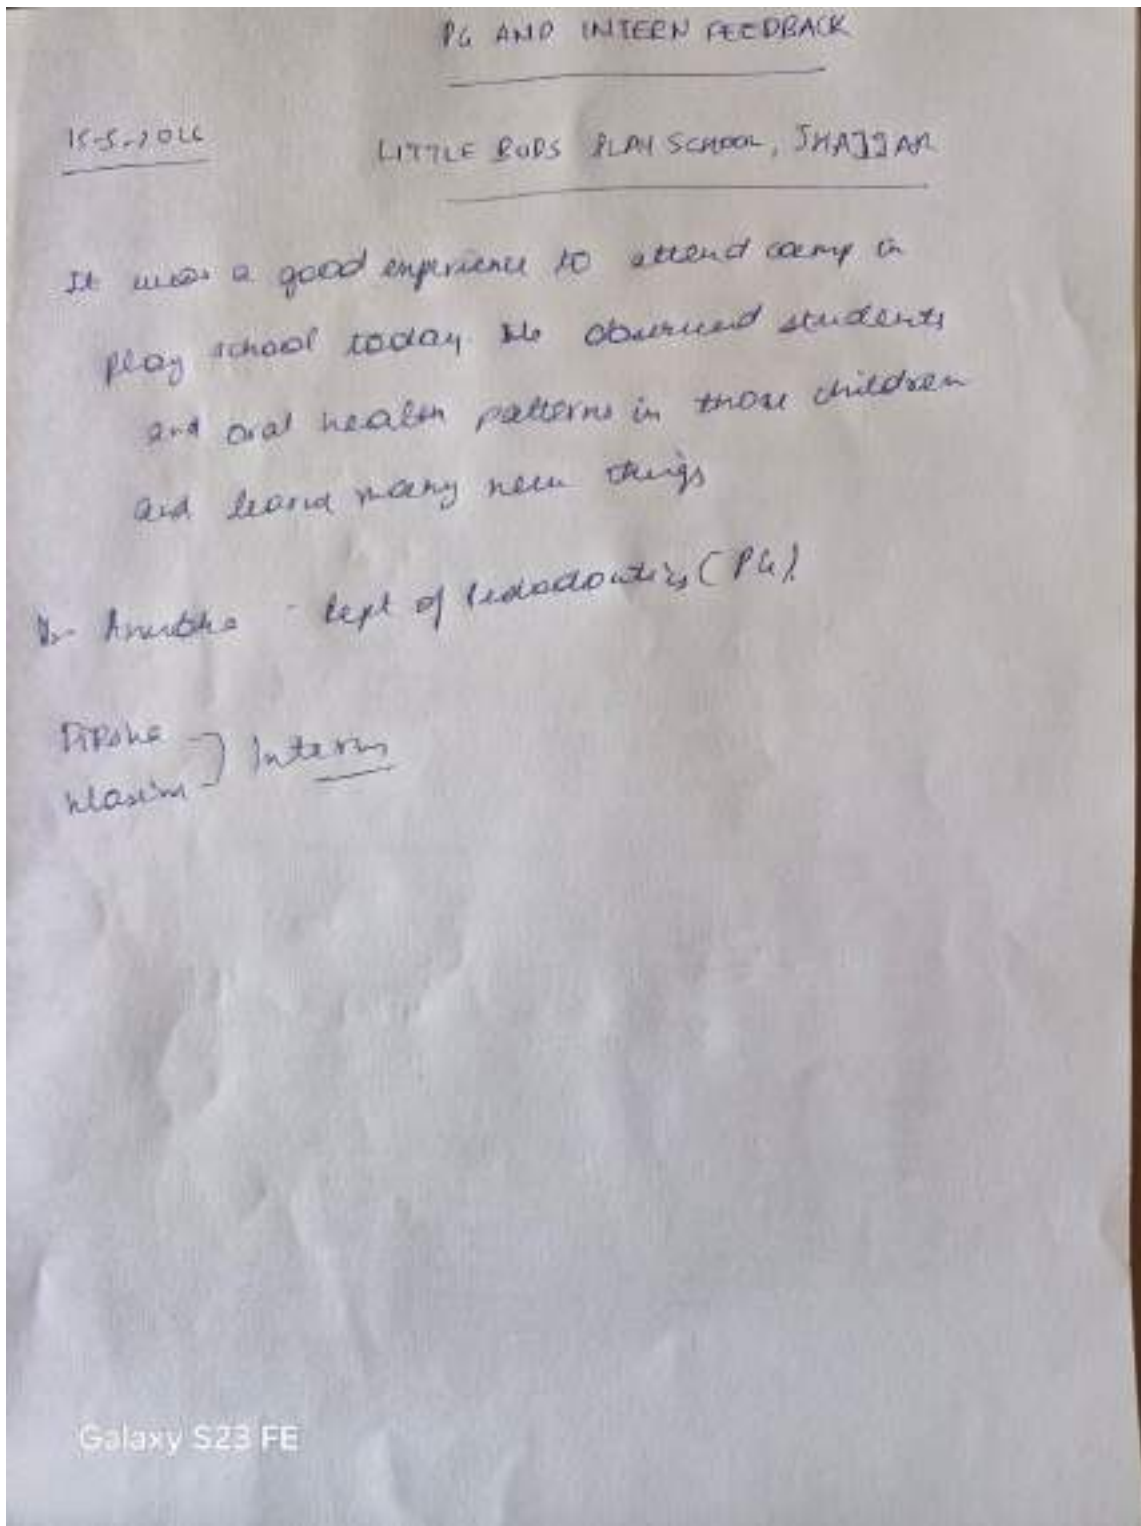

- **Improved Access to Oral Health Services:**

By bringing dental screening and preventive care directly to the old age home, the event bridged the gap between healthcare providers and a vulnerable, underserved population.

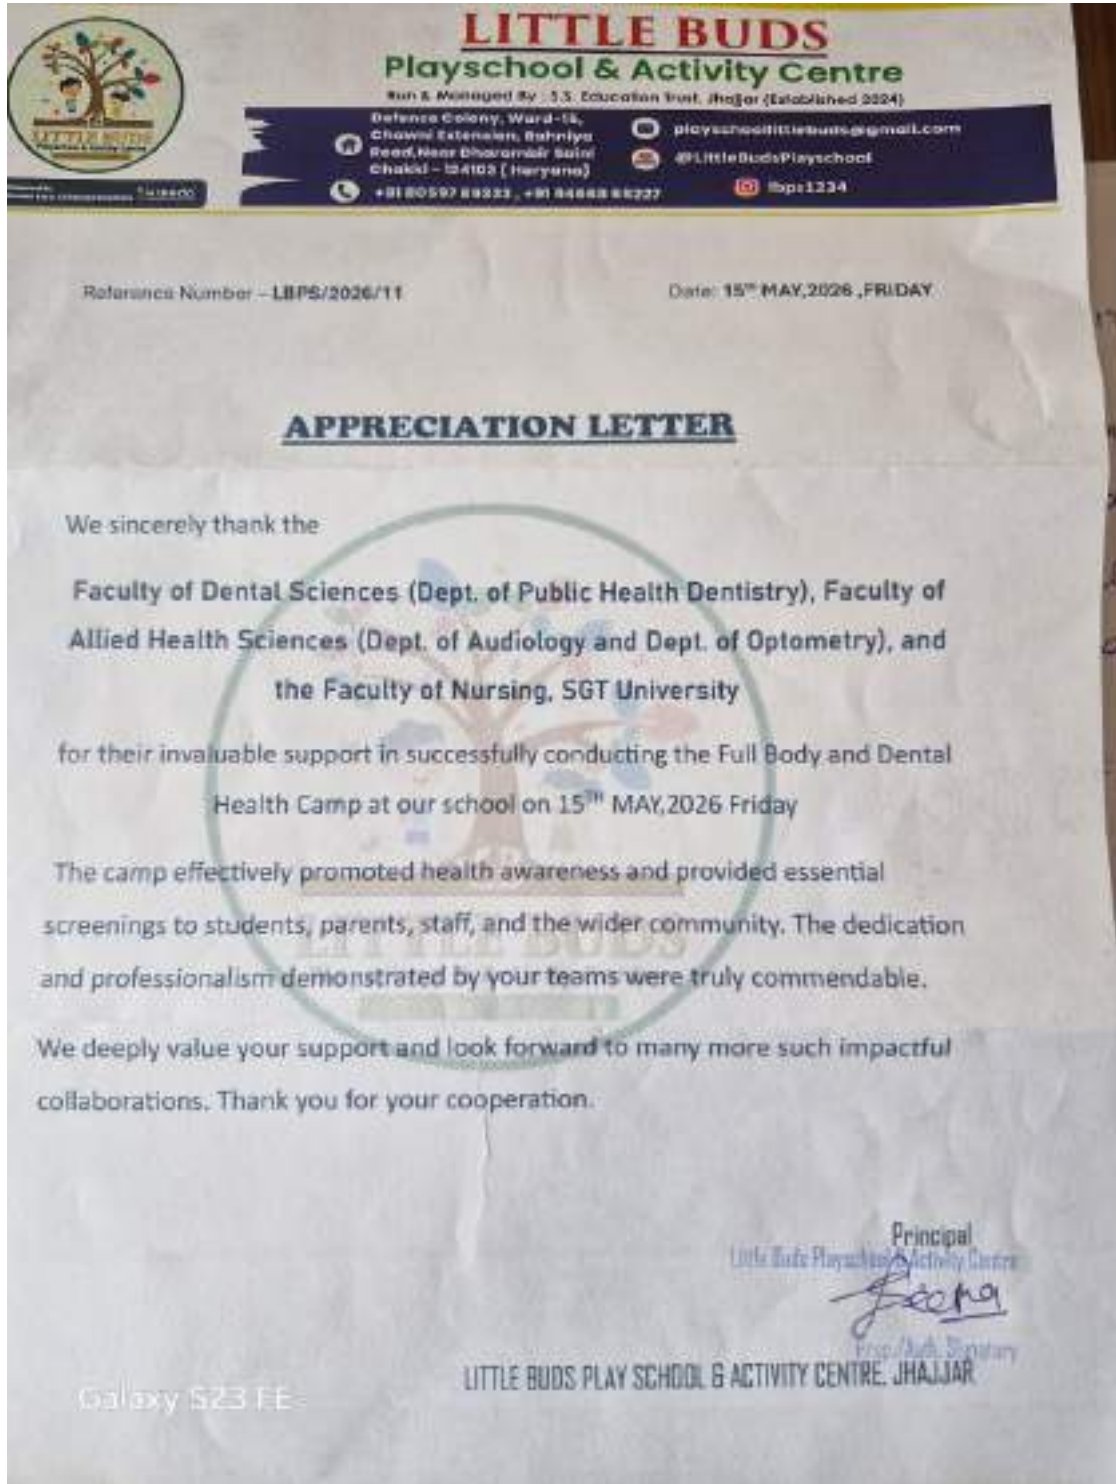

- **Student and Faculty Engagement:**

The event served as a valuable experiential learning opportunity for dental students and faculty, enhancing their understanding of oral health challenges in real- world settings.

ANNEXURE VIII- CONCLUSIONS

The camp activity organized at **Little Buds Playschool, Jhajjar** successfully fulfilled its objective of promoting oral health awareness, delivering preventive dental care as well as providing basic treatment. The event created a meaningful impact by empowering residents with essential knowledge on maintaining oral hygiene, enabling early detection of dental issues, and providing easily accessible basic treatment services within their community setting.

ANNEXURE IX-ACKNOWLEDGMENTS

The Department of Public Health Dentistry, **Faculty of Dental Sciences, SGT University**, extends heartfelt gratitude to all individuals and organizations whose support made the outreach activity a success.

We express our sincere appreciation to the **University Management** for their continuous encouragement and institutional support in promoting community outreach initiatives. Special thanks to **School team**, for their cooperation and participation in this noble endeavor.

We acknowledge the dedicated efforts of the **faculty members, postgraduate students, interns, and undergraduate volunteers** from the Department of Public Health Dentistry, as well as there were participants from Department of Audiology and Optometry from Allied Health Sciences as well as from Department of Nursing whose enthusiasm and teamwork ensured smooth coordination and successful execution of all activities.

Gratitude is also extended to the **supporting staff** for their logistical assistance, setup, and on-ground arrangements throughout the event.

Lastly, we thank all **participants and residents** for their active involvement, warm interaction, and trust, which truly made this event meaningful and impactful.

EVENT HIGHLIGHTS

On **19th May 2026**, the **Department of Public Health Dentistry**, Faculty of Dental Sciences, SGT University, organized an Outreach **Activity- Oral Health Check Up Camp at Dhankot, Gurugram, Haryana.**

The event aimed to promote oral hygiene awareness and provide preventive and curative dental services at outreach set-up.

Screening of total **30 patients (males- 13; females -17)** were done in the camp. The team conducted **demonstrations of correct tooth-brushing techniques, oral hygiene education sessions**, as well as **one-to-one consultations**, followed by the **oral health education talk** on correct brushing techniques, the right choice of toothbrush and toothpaste, and the importance of maintaining a balanced diet for healthy teeth. This outreach activity encouraged everyone to develop the **importance of adapting good oral hygiene in everyday practices.**

The camp successfully enhanced oral health awareness among the participants, emphasizing the university's ongoing commitment to community outreach and preventive dental care. There was **active participation of all the team members**, providing them valuable **field-based public health practice and experiential learning opportunities.**

ANNEXURE – 5

EVENT BANNER

ANNEXURE – 6

OUTCOMES / IMPACT

- **Enhanced Oral Health Awareness:**

The event aimed to promote oral hygiene awareness via outreach activity. The initiative aimed to promote oral health awareness and provide preventive and curative dental services at outreach set-up. In end the importance of maintaining good oral hygiene, regular dental checkups, and the relationship between oral health and general well-being was delivered.

- **Education on Oral Hygiene Practices:**

Participants received practical demonstrations on effective toothbrushing techniques, denture hygiene maintenance, and use of appropriate oral hygiene aids.

- **Early Detection of Dental Problems:**

Through oral screening, the dental team identified common age-related dental conditions such as dental caries, gum diseases, oral mucosal lesions, enabling timely referrals for further management.

- **Preventive and Basic Treatment Services:**

The team conducted demonstrations of correct tooth-brushing techniques, oral hygiene education sessions, as well as one-to-one consultations, followed by the oral health education talk on correct brushing techniques, the right choice of toothbrush and toothpaste, and the importance of maintaining a balanced diet for healthy teeth.

- **Distribution of Oral Hygiene Kits:**

Toothbrushes, toothpaste, and awareness leaflets were distributed to promote continuity of oral hygiene practices.

- **Improved Access to Oral Health Services:**

By bringing dental screening to the participants of on **19th May 2026**, the **Department of Public Health Dentistry**, Faculty of Dental Sciences, SGT University organized an Outreach **Activity- Oral Health Check Up Camp at Dhankot, Gurugram, Haryana**. The event bridged the gap between healthcare providers and the patients who are in need of oral health checkup.

- **Student and Faculty Engagement:**

The event served as a valuable experiential learning opportunity for dental students and faculty, enhancing their understanding of oral health challenges in real- world.

Event Highlights

The Department of Public Health Dentistry organised a dental camp at Village Deverkhana, Gurugram, May 20, 2026. The camp was organised through the collaborative efforts of the SGT Marketing Team. People of all ages were screened, including 16 males and 12 females. During the examinations, several dental problems were identified, allowing for prompt intervention and treatment. The camp helped avert more severe oral health issues by addressing them early.

Village Camp (Doverkhano)

Faculty - Dr. Hemakshi

Interns - Diksha, Bhawana.

The village camp was a highly informative & community oriented program aimed at improving oral health awareness among rural population. The camp included oral health screening, patient education regarding proper brushing techniques and distribution of basic oral hygiene instructions. The program provided an excellent opportunity to interact with villagers and understand common dental problems prevalent in rural areas. The camp was a valuable learning experience that contributed to both professional development and social responsibility.

Annexure 9

Conclusion

The camp successfully achieved its goals of raising community awareness about oral health issues and providing vital dental care. People who needed advanced dental care were referred to the main campus Dental Clinics with a Blue and Yellow Referral Slip, through which they could avail themselves of waivers on their nominal payments towards various dental procedures. Sample Toothpastes, Mouthwashes, and Toothbrushes were distributed as goodwill to all patients and others who were examined at the camp.

Annexure 10

Acknowledgment

The Department of Public Health Dentistry, Faculty of Dental Sciences, SGT University, extends heartfelt gratitude to all individuals and organisations whose support made the event a success. We express our Special thanks to Management for their cooperation and active participation in this noble endeavour. We acknowledge the dedicated efforts of the faculty members, postgraduate students from other departments, interns, and support staff members from the Department of Public Health Dentistry, whose enthusiasm and teamwork ensured smooth coordination and successful execution of all activities.

ANNEXURE III- EVENT HIGHLIGHTS

- Comprehensive oral health screening of participants by the team from the Department of Public Health Dentistry.
- Personalized consultations offer advice on oral hygiene maintenance, denture care, and dietary habits.
- Awareness session on the importance of oral health in maintaining overall systemic health among participants.
- Distribution of oral hygiene kits including toothbrushes, toothpaste, and educational pamphlets.
- Interactive and recreational activities to foster emotional connection and well-being among the participants.
- Collaborative effort between SGT University and SGT Marketing Team promoting social responsibility and community engagement.
- Student participation and experiential learning through field-based public health practice.

ANNEXURE IV- EVENT POSTER/BANNER/INVITATION CARD/LETTER

ANNEXURE V- OUTCOMES / IMPACT

- **Enhanced Oral Health Awareness:**

The event aimed to sensitize the participants about the importance of maintaining good oral hygiene, regular dental checkups, and the relationship between oral health and general well-being.

- **Education on Oral Hygiene Practices:**

Participants received practical demonstrations on effective toothbrushing techniques, denture hygiene maintenance, and use of appropriate oral hygiene aids.

- **Early Detection of Dental Problems:**

Through oral screening, the team identified common age-related dental conditions such as dental caries, gum diseases, oral mucosal lesions, enabling timely referrals for further management.

- **Promotion of Healthy Dietary Habits:**

Counseling sessions emphasized the importance of a balanced, non-cariogenic diet to maintain both oral and general health.

- **Distribution of Oral Hygiene Kits:**

Toothbrushes, toothpaste, and awareness leaflets were distributed to promote continuity of oral hygiene practices at home.

- **Improved Access to Oral Health Services:**

By bringing dental screening and preventive care directly to the camp site, the event bridged the gap between healthcare providers and a vulnerable, underserved population.

- **Student and Faculty Engagement:**

The event served as a valuable experiential learning opportunity for dental students, enhancing their understanding of oral health challenges in real-world settings.

ANNEXURE VI-FEEDBACK

Date- 21/05/2022

Place- Chakrapur

Faculty - Dr. Sunil Prasad

Interns - Bhawana, Jitesha

The dental camp was well organized and conducted smoothly. The Place selected for the camp was good, spacious and comfortable for both patients and the dental team. The facilities provided were satisfactory and power water facility was available throughout the camp.

The patients attending the camp were cooperative and responsive during examination and treatment procedures. Their positive attitude helped in the smooth functioning of the camp activities. The staff members and organizers were also supportive and managed the arrangements efficiently.

Feedback By Interns Participating In Camp

ANNEXURE VIII- CONCLUSIONS

The outreach activity successfully fulfilled its objective of promoting oral health awareness and delivering preventive dental care among the participants. The event created a positive impact by empowering participants with knowledge about maintaining oral hygiene, facilitating early identification of dental problems, and providing accessible basic treatment services within their residential setting.

ANNEXURE IX-ACKNOWLEDGMENTS

The Department of Public Health Dentistry, **Faculty of Dental Sciences, SGT University**, extends heartfelt gratitude to all individuals and SGT Marketing Team whose support made the event a success.

We acknowledge the dedicated efforts of the **faculty members**, and interns whose enthusiasm and teamwork ensured smooth coordination and successful execution of all activities.

Gratitude is also extended to the **supporting staff** for their setup, and on-ground arrangements throughout the event.

Lastly, we thank all **participants** for their active involvement, warm interaction, and trust, which truly made this event meaningful and impactful.

7.	2:15 PM	Departure from Camp Site
8.	3:00 PM	Arrival at Campus & Dispersal

ANNEXURE 4- EVENT HIGHLIGHTS

The Department of Public Health Dentistry, Faculty of Dental Sciences, in collaboration with the Marketing Department, SGT University, under the aegis of Samajik Vikas SGT Ka Prayas (SVSP), conducted a comprehensive dental check-up and oral health awareness camp on 22nd May 2026 at Sultanpur Village, Farrukh Nagar Tehsil, Gurugram District, Haryana.

The camp was organized with the objective of promoting oral health awareness among rural communities and facilitating comprehensive dental screening for the early detection and prevention of oral diseases. The initiative aimed to encourage healthy oral hygiene practices, improve oral health literacy, and enhance access to preventive dental care services among villagers.

A total of 11 individuals attended the OPD. Oral examinations revealed the presence of common dental conditions such as dental caries, extrinsic stains, gingival inflammation, bleeding gums, dentinal sensitivity, and poor oral hygiene status. Tobacco use was observed among some participants, highlighting the need for continued tobacco cessation counselling and preventive oral healthcare interventions. A few individuals were identified as requiring further diagnostic evaluation and treatment.

The dental team conducted comprehensive oral health assessments and provided individualized consultations to all participants. Demonstrations of proper tooth-brushing techniques were carried out to reinforce effective oral hygiene practices. Interactive oral health education sessions focused on the importance of maintaining oral hygiene, adopting healthy dietary habits, preventing dental diseases, and understanding the harmful effects of tobacco use on oral and general health.

To encourage long-term oral health maintenance, oral hygiene kits were distributed among the beneficiaries. Concession referral cards for treatment at SGT Dental Hospital were also provided to facilitate affordable access to specialized dental care and follow-up treatment. The villagers actively participated in the camp activities and appreciated the efforts of the dental team in bringing essential oral healthcare services to their community.

The outreach activity strengthened community engagement and reaffirmed SGT University's commitment to promoting preventive oral healthcare, early disease detection, and improved oral health outcomes among underserved populations.

ANNEXURE 5- EVENT BANNER

ANNEXURE 6- OUTCOMES / IMPACT

The oral health screening and awareness camp at Babupur Village, Sector-108, Gurugram, had a positive impact in promoting oral health awareness and preventive dental care among the local community. The initiative provided an opportunity for residents to access basic oral healthcare services and receive education regarding the importance of maintaining good oral hygiene practices.

Through the screening of 11 individuals, common oral health problems such as dental caries, gingival inflammation, stains, dentinal sensitivity, and poor oral hygiene were identified. Early detection of these conditions enabled timely counselling, preventive guidance, and appropriate referrals for further evaluation and treatment where required.

The camp facilitated personalized interactions between the dental team and participants, helping to address individual oral health concerns and reinforce the importance of regular dental check-ups. Educational sessions and demonstrations of proper tooth-brushing techniques enhanced participants' understanding of effective plaque control measures and healthy lifestyle practices essential for maintaining oral health.

Tobacco use was observed among some attendees, and targeted counselling was provided to increase awareness about its harmful effects on oral and general health. These interventions aimed to encourage positive behavioural changes and support tobacco cessation efforts within the community.

The distribution of oral hygiene kits promoted the adoption of good oral hygiene practices, while concession referral cards for SGT Dental Hospital facilitated access to affordable follow-up care and specialized dental treatment services. Overall, the camp contributed to improving oral health literacy, encouraging preventive healthcare-seeking behaviour, and facilitating the early identification of oral diseases. The activity highlighted the importance of sustained community outreach programs in enhancing oral health awareness and improving access to dental care services among rural and underserved populations.

ANNEXURE 7- PHOTOS (GEOTAG) AS ATTACHMENT

ANNEXURE 8- CONCLUSION

The oral health screening and awareness camp conducted at Sultanpur Village, served as a valuable community outreach initiative aimed at promoting oral health awareness and addressing the oral healthcare needs of the local population. The camp facilitated meaningful interaction with community members and reinforced the importance of oral health as an essential component of overall health and well-being.

Through comprehensive oral health screening, individualized counselling, and preventive health education, the initiative contributed to the early identification of common oral diseases and encouraged timely utilization of dental care services. The activity also promoted positive health-seeking behaviour by empowering participants with the knowledge and skills required to maintain good oral hygiene and prevent oral diseases.

The camp underscored the importance of integrating oral health promotion with community-based healthcare initiatives to achieve sustainable improvements in public health. Through oral health education, tobacco cessation counselling, and facilitation of affordable follow-up care, the program reinforced the significance of preventive dentistry and community participation in improving oral health outcomes.

Overall, the camp reflects the continued commitment of the Department of Public Health Dentistry, Faculty of Dental Sciences, SGT University, towards strengthening community-oriented dental services, reducing oral health disparities, and advancing preventive oral healthcare among underserved populations.

ANNEXURE 9-ACKNOWLEDGMENTS

The Department of Public Health Dentistry, Faculty of Dental Sciences, SGT University, extends its sincere gratitude to all individuals and stakeholders whose support and cooperation contributed to the successful conduct of the oral health screening and awareness camp at Babupur Village, Sector-108, Gurugram, Haryana.

We would like to express our appreciation to the villagers for their active participation and cooperation throughout the camp. Their enthusiastic involvement in the oral health screening and educational activities significantly contributed to the success and impact of the initiative.

The camp was conducted under the guidance of Dr. Charu Khurana, Associate Professor and Head, Department of Public Health Dentistry, whose leadership and encouragement were instrumental in the planning and execution of the activity. We also acknowledge the dedicated efforts of MDS 1st Year Student- Dr. Vishesh, BDS Interns Mr. Harkish and Mr. Ujjwal, along with the valuable support of Mr. Devesh (Non-Teaching Staff), whose commitment, teamwork, and active participation ensured the smooth conduct of all camp activities, including oral health screening, patient counselling, health education, and distribution of oral hygiene kits.

We further extend our gratitude to the Marketing Department, SGT University, and the Samajik Vikas SGT Ka Prayas (SVSP) initiative for their valuable support in facilitating this community outreach program.

The collective efforts of all stakeholders played a vital role in enhancing oral health awareness, promoting preventive healthcare practices, and improving access to dental care services within the community. Such collaborative initiatives continue to strengthen the Department's commitment to community-based oral healthcare and public health promotion.

EVENT HIGHLIGHTS

On 25th May 2026, the **Department of Public Health Dentistry**, Faculty of Dental Sciences, SGT University, organized an Outreach **Activity- Oral Health Check Up Camp at Fazilpur, Badli, Haryana**

The event aimed to promote oral hygiene awareness and provide preventive and curative dental services at outreach set-up.

Screening of total **12 patients (males- 8; females 4)** were done in the camp. The team conducted **demonstrations of correct tooth-brushing techniques, oral hygiene education sessions**, as well as **one-to-one consultations**, followed by the **oral health education talk** on correct brushing techniques, the right choice of toothbrush and toothpaste, and the importance of maintaining a balanced diet for healthy teeth. This outreach activity encouraged everyone to develop the **importance of adapting good oral hygiene in everyday practices.**

The camp successfully enhanced oral health awareness among the participants, emphasizing the university's ongoing commitment to community outreach and preventive dental care. There was **active participation of all the team members**, providing them valuable **field-based public health practice and experiential learning opportunities.**

ANNEXURE – 5

EVENT BANNER

ANNEXURE – 6

OUTCOMES / IMPACT

- **Enhanced Oral Health Awareness:**

The event aimed to promote oral hygiene awareness via outreach activity. The initiative aimed to promote oral health awareness and provide preventive and curative dental services at outreach set-up. In end the importance of maintaining good oral hygiene, regular dental checkups, and the relationship between oral health and general well-being was delivered.

- **Education on Oral Hygiene Practices:**

Participants received practical demonstrations on effective toothbrushing techniques, denture hygiene maintenance, and use of appropriate oral hygiene aids.

- **Early Detection of Dental Problems:**

Through oral screening, the dental team identified common age-related dental conditions such as dental caries, gum diseases, oral mucosal lesions, enabling timely referrals for further management.

- **Preventive and Basic Treatment Services:**

The team conducted demonstrations of correct tooth-brushing techniques, oral hygiene education sessions, as well as one-to-one consultations, followed by the oral health education talk on correct brushing techniques, the right choice of toothbrush and toothpaste, and the importance of maintaining a balanced diet for healthy teeth.

- **Distribution of Oral Hygiene Kits:**

Toothbrushes, toothpaste, and awareness leaflets were distributed to promote continuity of oral hygiene practices.

- **Improved Access to Oral Health Services:**

By bringing dental screening to the participants of on **25th May 2026**, the **Department of Public Health Dentistry**, Faculty of Dental Sciences, SGT University organized an Outreach **Activity- Oral Health Check Up Camp at Fazilpur, Badli, Haryana**

The event bridged the gap between healthcare providers and the patients who are in need of oral health checkup.

- **Student and Faculty Engagement:**

The event served as a valuable experiential learning opportunity for dental students and faculty, enhancing their understanding of oral health challenges in real- wo

- **Enhanced Oral Health Awareness:**

The event aimed to sensitize the residents of Manuwas mewat about the importance of maintaining good oral hygiene, the need for regular dental check-ups, and the connection between oral health and overall well-being.

- **Education on Oral Hygiene Practices:**

Residents of Manuwas mewat received practical demonstrations on effective toothbrushing techniques, and use of appropriate oral hygiene aids.

- **Early Detection of Dental Problems:**

Through oral screening, the dental team identified common dental conditions such as dental caries, gum diseases, enabling timely referrals for further management.

- **Promotion of Healthy Dietary Habits:**

Counseling sessions emphasized the importance of a balanced, non-cariogenic diet to maintain both oral and general health.

- **Distribution of Oral Hygiene Kits:**

Toothbrushes, toothpaste, and awareness leaflets were distributed to promote continuity of oral hygiene practices.

- **Improved Access to Oral Health Services:**

By bringing dental screening to the Residents of Manuwas mewat, the event bridged the gap between healthcare providers and a vulnerable.

- **Intern Engagement:**

The event served as a valuable experiential learning opportunity for Intern students, enhancing their understanding of oral health challenges in real- world settings.

ANNEXURE 7-FEEDBACKS

It was a great experience as today we went to village camp to deal with patients encourage them with proper brushing technique instructions and treatment. ~~also~~

2) Also staff provided us with good food quality. As a dental intern, I got the opportunity to interact with people from rural areas and understood their oral health problems closely.
many will

Oral Screening at Manuwas Mewat, Haryana

Oral Screening at Manuwas Mewat, Haryana

ANNEXURE 9- CONCLUSION

The Oral Health Screening at Manuwas Mewat , Haryana successfully fulfilled its objective of promoting oral health awareness and delivering oral health education talk on correct brushing techniques, the right choice of toothbrush and toothpaste, and the importance of maintaining a balanced diet for healthy teeth among residents of the manuwas mewat. In the end Oral Hygiene kits comprising Toothbrushes and Toothpastes were distributed.

ANNEXURE 10-ACKNOWLEDGMENTS

The Department of Public Health Dentistry, Faculty of Dental Sciences, SGT University organized a dental camp on **28th May, 2026 at Manuwas Mewat, Haryana.**

The Department of Public Health Dentistry, Faculty of Dental Sciences, SGT University, extends heartfelt gratitude to all individuals and organizations whose support made the event a success. We express our Special thanks to the residents of the **Manuwas Mewat, Haryana** for their cooperation and active participation in this noble endeavor.

The initiative took place under the guidance of Dr. Charu Khurana (Associate Professor and Head, Department of Public Health Dentistry).

The dental team was headed by interns- Ritika, Divyani and Supporting Staff – Mr. Sunil.

Our department extends gratitude to each member whose enthusiasm and teamwork ensured smooth coordination and successful execution of all activities. With the involvement of every single member of the dental team and their enormous efforts, health education and health promotion were achieved at its best.

ANNEXURE III- EVENT HIGHLIGHTS

- Comprehensive oral health screening of participants by the team from the Department of Public Health Dentistry.
- Personalized consultations offer advice on oral hygiene maintenance, denture care, and dietary habits.
- Awareness session on the importance of oral health in maintaining overall systemic health among participants.
- Distribution of oral hygiene kits including toothbrushes, toothpaste, and educational pamphlets.
- Interactive and recreational activities to foster emotional connection and well-being among the participants.
- Collaborative effort between SGT University and SGT Marketing Team promoting social responsibility and community engagement.
- Student participation and experiential learning through field-based public health practice.

ANNEXURE IV- EVENT POSTER/BANNER/INVITATION CARD/LETTER

ANNEXURE V- OUTCOMES / IMPACT

- **Enhanced Oral Health Awareness:**

The event aimed to sensitize the participants about the importance of maintaining good oral hygiene, regular dental checkups, and the relationship between oral health and general well-being.

- **Education on Oral Hygiene Practices:**

Participants received practical demonstrations on effective toothbrushing techniques, denture hygiene maintenance, and use of appropriate oral hygiene aids.

- **Early Detection of Dental Problems:**

Through oral screening, the team identified common age-related dental conditions such as dental caries, gum diseases, oral mucosal lesions, enabling timely referrals for further management.

- **Distribution of Oral Hygiene Kits:**

Toothbrushes, toothpaste, and awareness leaflets were distributed to promote continuity of oral hygiene practices at home.

- **Improved Access to Oral Health Services:**

By bringing dental screening and preventive care directly to the camp site, the event bridged the gap between healthcare providers and a vulnerable, underserved population.

- The World No Tobacco Day outreach activity had a positive impact on the community by enhancing awareness regarding the harmful effects of tobacco use and its association with oral diseases, including oral cancer. Participants gained valuable knowledge about tobacco cessation strategies, the benefits of maintaining a tobacco-free lifestyle, and the importance of regular oral health check-ups. The activity encouraged individuals to adopt healthier behaviors, motivated tobacco users to consider quitting, and promoted early recognition of oral health problems. Furthermore, the initiative strengthened community engagement, improved access to oral health education, and reinforced the role of preventive healthcare in reducing the burden of tobacco-related diseases. Overall, the event contributed to fostering a more informed, health-conscious, and tobacco-free community.

Karva Shivkumar

I had the opportunity to participate as an intern at the Reliance camp Badli, Gurugram on 29-05-26 as part of my posting in the Department of Public Health Dentistry. It was a wonderful experience.

Working alongside my fellow interns was amazing. The teamwork, enthusiasm and commitment displayed by everyone contributed greatly to the smooth functioning & success of the camp. We were able to provide dental screening, oral health education & preventive care advice, along with treatment procedures like scaling and restorations to numerous participants making the experience both educational and fulfilling.

I would like to thank the organizers Reliance Aet and the faculty members of Dept. of PHD for their guidance, encouragement & providing us with the opportunity to be a part of community dental programmes. Looking forward to participating in more such initiatives in the future.

Thanking you
Yours sincerely,

KARVA SHIVKUMAR

ANNEXURE VIII- CONCLUSIONS

The outreach activity successfully fulfilled its objective of promoting oral health awareness and delivering preventive dental care among the participants. The event created a positive impact by empowering participants with knowledge about maintaining oral hygiene, facilitating early identification of dental problems, and providing accessible basic treatment services within their residential setting.

ANNEXURE IX-ACKNOWLEDGMENTS

The Department of Public Health Dentistry, Department of Oral Medicine and Radiology, Department of Oral and Maxillofacial Surgery along with Reliance Foundation Team, **Faculty of Dental Sciences, SGT University**, extends heartfelt gratitude to all individuals and Reliance Foundation whose support made the event a success.

We acknowledge the dedicated efforts of the **faculty members**, and interns whose enthusiasm and teamwork ensured smooth coordination and successful execution of all activities.

Gratitude is also extended to the **supporting staff** for their setup, and on-ground arrangements throughout the event.

Lastly, we thank all **participants** for their active involvement, warm interaction, and trust, which truly made this event meaningful and impactful.

Event Highlights

The Department of Public Health Dentistry organised a dental camp at Village Tikli, Gurugram, May 31, 2026. The camp was organised through the collaborative efforts of the SGT Marketing Team. People of all ages were screened, including 19 males and 03 females. During the examinations, several dental problems were identified, allowing for prompt intervention and treatment. The camp helped avert more severe oral health issues by addressing them early.

Outcome of the Activity & its relevance to Health Sciences:

22 Patients were examined, out of which-

- 18% patients were diagnosed with Dental Caries,*
- 30% patients were diagnosed periodontal Disease.*

All the patients who required any kind of dental services were referred to SGT Dental College, Gurugram.

Annexure 7

Village Camp - Tikli

Interns - Bhawana, Harsh, Anil, Aswari

The village dental Camp was an enriching and meaningful experience. The camp focused on promoting oral health awareness and providing basic dental check-ups to general population. During the camp various dental problems such as tooth decay, gum diseases and oral lesions were identified among patients. The camp was well organized and helped in improving clinical examination skills, patient interaction and teamwork. It was a productive & socially beneficial experience.

Annexure 8
Photos

Annexure 9

Conclusion

The camp successfully achieved its goals of raising community awareness about oral health issues and providing vital dental care. People who needed advanced dental care were referred to the main campus Dental Clinics with a Blue and Yellow Referral Slip, through which they could avail themselves of waivers on their nominal payments towards various dental procedures. Sample Toothpastes, Mouthwashes, and Toothbrushes were distributed as goodwill to all patients and others who were examined at the camp.

Annexure 10

Acknowledgment

The Department of Public Health Dentistry, Faculty of Dental Sciences, SGT University, extends heartfelt gratitude to all individuals and organisations whose support made the event a success. We express our Special thanks to Management for their cooperation and active participation in this noble endeavour. We acknowledge the dedicated efforts of the faculty members, postgraduate students from other departments, interns, and support staff members from the Department of Public Health Dentistry, whose enthusiasm and teamwork ensured smooth coordination and successful execution of all activities.

ANNEXURE V- OUTCOMES / IMPACT

- **Enhanced Oral Health Awareness:**

The event aimed to sensitize the participants about the importance of maintaining good oral hygiene, regular dental checkups, and the relationship between oral health and general well-being.

- **Education on Oral Hygiene Practices:**

Participants received practical demonstrations on effective toothbrushing techniques, denture hygiene maintenance, and use of appropriate oral hygiene aids.

- **Early Detection of Dental Problems:**

Through oral screening, the team identified common age-related dental conditions such as dental caries, gum diseases, oral mucosal lesions, enabling timely referrals for further management.

- **Promotion of Healthy Dietary Habits:**

Counseling sessions emphasized the importance of a balanced, non-cariogenic diet to maintain both oral and general health.

- **Distribution of Oral Hygiene Kits:**

Toothbrushes, toothpaste, and awareness leaflets were distributed to promote continuity of oral hygiene practices at home.

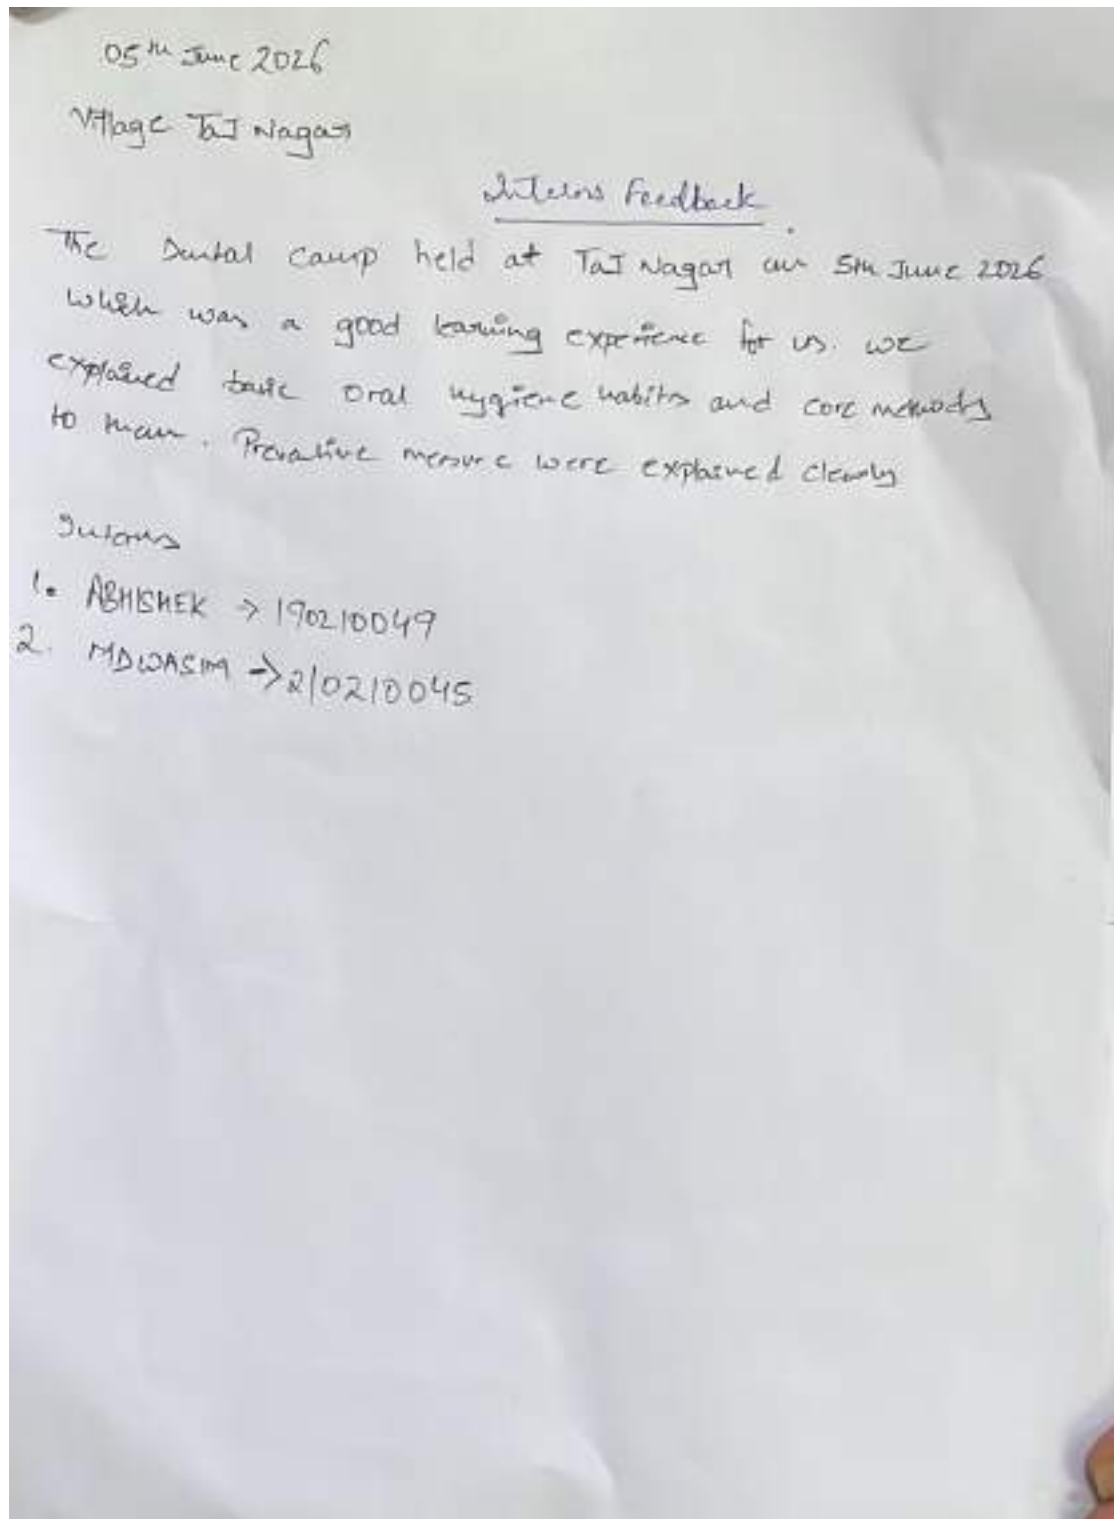

- **Improved Access to Oral Health Services:**

By bringing dental screening and preventive care directly to the camp site, the event bridged the gap between healthcare providers and a vulnerable, underserved population.

- **Student and Faculty Engagement:**

The event served as a valuable experiential learning opportunity for dental students, enhancing their understanding of oral health challenges in real-world settings.

ANNEXURE VIII- CONCLUSIONS

The outreach activity successfully fulfilled its objective of promoting oral health awareness and delivering preventive dental care among the participants. The event created a positive impact by empowering participants with knowledge about maintaining oral hygiene, facilitating early identification of dental problems, and providing accessible basic treatment services within their residential setting.

ANNEXURE IX-ACKNOWLEDGMENTS

The Department of Public Health Dentistry, **Faculty of Dental Sciences, SGT University**, extends heartfelt gratitude to all individuals and SGT Marketing Team whose support made the event a success.

We acknowledge the dedicated efforts of the **faculty members**, and interns whose enthusiasm and teamwork ensured smooth coordination and successful execution of all activities.

Gratitude is also extended to the **supporting staff** for their setup, and on-ground arrangements throughout the event.

Lastly, we thank all **participants** for their active involvement, warm interaction, and trust, which truly made this event meaningful and impactful.

EVENT HIGHLIGHTS

On **9th June 2026**, the **Department of Public Health Dentistry**, Faculty of Dental Sciences, SGT University, organized an Outreach **Activity- Oral Health Check Up Camp at Hassanpur, Nuh, Haryana**.

The event aimed to promote oral hygiene awareness and provide preventive and curative dental services at outreach set-up.

Screening of total **32 patients (males- 6; females-26)** were done in the camp. The team conducted **demonstrations of correct tooth-brushing techniques, oral hygiene education sessions**, as well as **one-to-one consultations**, followed by the **oral health education talk** on correct brushing techniques, the right choice of toothbrush and toothpaste, and the importance of maintaining a balanced diet for healthy teeth. This outreach activity encouraged everyone to develop the **importance of adapting good oral hygiene in everyday practices**.

The camp successfully enhanced oral health awareness among the participants, emphasizing the university's ongoing commitment to community outreach and preventive dental care. There was **active participation of all the team members**, providing them valuable **field-based public health practice and experiential learning opportunities**.

FEEDBACK

FEEDBACK ON: DENTAL CAMP - HASSANPUR, SONNA

Date: 09-06-2024

Day: Tuesday

Location: Hassanpur, Sonna

→ Faculty member: Dr. Navodita Jaiswal

→ Interns posted:

- Ishita Yadav
- Kavya Sivakumar

→

The Hassanpur, sonna camp was a wonderful experience. We screened many patients, learned a lot and enjoyed interacting with the local community.

The faculty member was supportive and approachable throughout the camp.

Despite minor concerns regarding the location, the experience was highly rewarding. We got good clinical exposure by screening many patients and had great time working together.

I am grateful to the department, all the faculty members and looking forward to attend more such camps.

Thanking You

Yours sincerely

KAVYA SIVAKUMAR

ANNEXURE – 9

CONCLUSION

On **9th June 2026**, the **Department of Public Health Dentistry**, Faculty of Dental Sciences, SGT University, organized an **Outreach Activity- Oral Health Check Up Camp** at **Hassanpur, Nuh, Haryana**, which successfully fulfilled its objective of promoting oral health awareness and delivering **oral health education talk** on correct brushing techniques, the right choice of toothbrush and toothpaste, and the importance of maintaining a balanced diet for healthy teeth. This health camp encouraged everyone to develop the **importance of adapting good oral hygiene practices**. In the end Oral Hygiene kits comprising Toothbrushes and Toothpastes were distributed among the participants.

ANNEXURE – 10

ACKNOWLEDGMENTS

On **9th June 2026**, the **Department of Public Health Dentistry**, Faculty of Dental Sciences, SGT University, organized an **Outreach Activity- Oral Health Check Up** at **Hassanpur, Nuh, Haryana**.

The dental team was headed by **Dr. Navodita Jamwal** (Assistant Professor, Dept. of Public Health Dentistry).

Other members of the team included, interns namely **Ishita and Kavya**, and **Mr. Devesh**, the supporting staff.

Our department extends gratitude to each member whose enthusiasm and teamwork ensured smooth coordination and successful execution of all activities.

With the involvement of every single member of the dental team and their enormous efforts, health education and health promotion were achieved at its best.

Event Highlights

The Department of Public Health Dentistry organised a dental camp at Village Lagarpur, Jhajjar, June 10, 2026. The camp was organised through the collaborative efforts of the SGT Marketing Team. People of all ages were screened, including 12 males and 05 females. During the examinations, several dental problems were identified, allowing for prompt intervention and treatment. The camp helped avert more severe oral health issues by addressing them early.

Annexure 9

Conclusion

The camp successfully achieved its goals of raising community awareness about oral health issues and providing vital dental care. People who needed advanced dental care were referred to the main campus Dental Clinics with a Blue and Yellow Referral Slip, through which they could avail themselves of waivers on their nominal payments towards various dental procedures. Sample Toothpastes, Mouthwashes, and Toothbrushes were distributed as goodwill to all patients and others who were examined at the camp.

Annexure 10

Acknowledgment

The Department of Public Health Dentistry, Faculty of Dental Sciences, SGT University, extends heartfelt gratitude to all individuals and organisations whose support made the event a success. We express our Special thanks to Management for their cooperation and active participation in this noble endeavour. We acknowledge the dedicated efforts of the faculty members, postgraduate students from other departments, interns, and support staff members from the Department of Public Health Dentistry, whose enthusiasm and teamwork ensured smooth coordination and successful execution of all activities.

- Student participation and experiential learning through field-based public health practice.

ANNEXURE IV- EVENT POSTER/BANNER/INVITATION CARD/LETTER

ANNEXURE V- OUTCOMES / IMPACT

- **Enhanced Oral Health Awareness:**

The event aimed to sensitize older adults about the importance of maintaining good oral hygiene, regular dental checkups, and the relationship between oral health and general well-being.

- **Education on Oral Hygiene Practices:**

Participants received practical demonstrations on effective toothbrushing techniques, denture hygiene maintenance, and use of appropriate oral hygiene aids.

- **Early Detection of Dental Problems:**

Through oral screening, the team identified common age-related dental conditions such as dental caries, gum diseases, oral mucosal lesions, and denture-related issues, enabling timely referrals for further management.

- **Promotion of Healthy Dietary Habits:**

Counseling sessions emphasized the importance of a balanced, non-cariogenic diet to maintain both oral and general health among the elderly.

- **Distribution of Oral Hygiene Kits:**

Toothbrushes, toothpaste, and medicines were distributed to promote continuity of oral hygiene practices at home.

- **Improved Access to Oral Health Services:**

By bringing dental screening and preventive care directly to the old age home, the event bridged the gap between healthcare providers and a vulnerable, underserved population.

- **Student and Faculty Engagement:**

The event served as a valuable experiential learning opportunity for dental students and faculty, enhancing their understanding of oral health challenges in real- world settings.

ANNEXURE VI-FEEDBACKS

16 June, 2026

Budha Baba Mandir, Patudi, Gungam

The dental camp held at Budha Baba Mandir, Patudi on 16 June, 2026 which was a good learning experience for us. We explained basic brushing techniques & care methods to them. Preventive measures were explained clearly. Awareness about oral hygiene was increased. Needful patients were provided treatment in mobile dental van. Overall experience of the camp was excellent & satisfying.

ANNEXURE VIII- CONCLUSIONS

The camp activity organized at **Pataudi, Gurgaon** successfully fulfilled its objective of promoting oral health awareness, delivering preventive dental care as well as providing basic treatment. The event created a meaningful impact by empowering residents with essential knowledge on maintaining oral hygiene, enabling early detection of dental issues, and providing easily accessible basic treatment services within their community setting.

ANNEXURE IX-ACKNOWLEDGMENTS

The Department of Public Health Dentistry, **Faculty of Dental Sciences, SGT University**, extends heartfelt gratitude to all individuals and organizations whose support made the outreach activity a success.

We express our sincere appreciation to the **University Management** for their continuous encouragement and institutional support in promoting community outreach initiatives. Special thanks to **Pataudi village**, for their cooperation and participation in this noble endeavor.

We acknowledge the dedicated efforts of the **faculty members, postgraduate students, interns, and undergraduate volunteers** from the Department of Public Health Dentistry, as well as there were participants from Department of Audiology and Optometry from Allied Health Sciences as well as from Department of Nursing whose enthusiasm and teamwork ensured smooth coordination and successful execution of all activities.

Gratitude is also extended to the **supporting staff** for their logistical assistance, setup, and on-ground arrangements throughout the event.

Lastly, we thank all **participants and residents** for their active involvement, warm interaction, and trust, which truly made this event meaningful and impactful.

Male- 10

Female- 10

- Residents of village enthusiastically participated in the dental camp. 20 individuals including 10 males and 10 females were examined.
- During the examinations, a number of dental problems were found, patients requiring complex treatment were referred to SGT Dental College and Hospital, Gurugram.
- Oral hygiene kits including toothbrush, toothpaste were distributed.
- Oral health education was imparted using IEC materials, demonstration of toothbrushing was also given with the help of Dentoform models.

ANNEXURE II- PROGRAM SCHEDULE

Date : 18TH June, 2026

Time: 10:00 AM onwards

Venue: Nuh (Mewat)

Organized by: Department of Public Health Dentistry in collaboration with Publicity team

Time	Activity
10:00- 10:30 AM	Arrival & Set Up at the Venue
10:30 – 11:00 AM	Oral Health Awareness Talk
11:00 AM – 02:00 PM	Oral Screening, Consultation
02:00 – 02:30 PM	Refreshment Break
02:30 – 02:45 PM	Interactive Session and Distribution of Oral Hygiene Kits
02:45 – 03:00 PM	Group Photograph
03:00 PM onwards	Departure

ANNEXURE III- EVENT HIGHLIGHTS

- Comprehensive oral health screening of residents by the team from the Department of Public Health Dentistry
- Personalized consultations offering advice on oral hygiene maintenance, denture care, and dietary habits.
- Awareness session on the importance of oral health in maintaining overall systemic health among older adults.
- Distribution of oral hygiene kits including toothbrushes, toothpaste, and educational pamphlets.
- Interactive and recreational activities to foster emotional connection and well-being among the elderly residents.
- Collaborative effort between SGT University and Marketing team promoting social responsibility and community engagement.
- Student participation and experiential learning through field-based public health practice.

ANNEXURE IV- EVENT POSTER/BANNER/INVITATION CARD/LETTER

ANNEXURE V- OUTCOMES / IMPACT

- **Enhanced Oral Health Awareness:**

The event aimed to sensitize older adults about the importance of maintaining good oral hygiene, regular dental checkups, and the relationship between oral health and general well-being.

- **Education on Oral Hygiene Practices:**

Participants received practical demonstrations on effective toothbrushing techniques, denture hygiene maintenance, and use of appropriate oral hygiene aids.

- **Early Detection of Dental Problems:**

Through oral screening, the team identified common age-related dental conditions such as dental caries, gum diseases, oral mucosal lesions, and denture-related issues, enabling timely referrals for further management.

- **Promotion of Healthy Dietary Habits:**

Counseling sessions emphasized the importance of a balanced, non-cariogenic diet to maintain both oral and general health among the elderly.

- **Distribution of Oral Hygiene Kits:**

Toothbrushes, toothpaste, and medicines were distributed to promote continuity of oral hygiene practices at home.

- **Improved Access to Oral Health Services:**

By bringing dental screening and preventive care directly to the old age home, the event bridged the gap between healthcare providers and a vulnerable, underserved population.

- **Student and Faculty Engagement:**

The event served as a valuable experiential learning opportunity for dental students and faculty, enhancing their understanding of oral health challenges in real- world settings.

ANNEXURE 4- EVENT HIGHLIGHTS

The **Department of Public Health Dentistry**, Faculty of Dental Sciences, SGT University, organized a **dental health screening camp on 19th June, 2026 at Faizabad, Haryana**. The initiative aimed to promote oral health awareness.

A total of **approximately 61 patients** were screened, of whom **28 were males and 33 were females**. The team conducted **oral hygiene education sessions**, including **demonstrations of correct tooth-brushing techniques**, and the **importance of maintaining good oral hygiene**.

All the patients who required any kind of dental services **were referred to SGT Dental Hospital** with **concessional referral slips**.

The camp successfully enhanced oral health awareness, emphasizing the university's ongoing commitment to community outreach and preventive dental care. There was **active participation of interns**, providing them valuable **field-based public health practice and experiential learning opportunities**.

ANNEXURE 5- EVENT BANNER

ANNEXURE 6- OUTCOMES / IMPACT

- **Enhanced Oral Health Awareness:**

The event aimed to sensitize the residents of the village about the importance of maintaining good oral hygiene, the need for regular dental check-ups, and the connection between oral health and overall well-being.

- **Education on Oral Hygiene Practices:**

Residents of the village received practical demonstrations on effective toothbrushing techniques, and use of appropriate oral hygiene aids.

- **Early Detection of Dental Problems:**

Through oral screening, the dental team identified common dental conditions such as dental caries, gum diseases, enabling timely referrals for further management.

- **Promotion of Healthy Dietary Habits:**

Counseling sessions emphasized the importance of a balanced, non-cariogenic diet to maintain both oral and general health.

- **Distribution of Oral Hygiene Kits:**

Toothbrushes, toothpaste, and awareness leaflets were distributed to promote continuity of oral hygiene practices.

- **Improved Access to Oral Health Services:**

By bringing dental screening to the residents of the village, the event bridged the gap between healthcare providers and a vulnerable.

- **Intern Engagement:**

The event served as a valuable experiential learning opportunity for Intern students, enhancing their understanding of oral health challenges in real- world settings.

ANNEXURE 4- EVENT HIGHLIGHTS

The **Department of Public Health Dentistry**, Faculty of Dental Sciences, SGT University, organized a **dental health screening camp on 22th June, 2026 at Ashok Vihar, Gurugram**. The initiative aimed to promote oral health awareness.

A total of **approximately 21 patients** were screened, of whom **08 were males and 13 were females**. The team conducted **oral hygiene education sessions**, including **demonstrations of correct tooth-brushing techniques**, and the **importance of maintaining good oral hygiene**.

All the patients who required any kind of dental services **were referred to SGT Dental Hospital** with **concessional referral slips**.

The camp successfully enhanced oral health awareness, emphasizing the university's ongoing commitment to community outreach and preventive dental care. There was **active participation of interns**, providing them valuable **field-based public health practice and experiential learning opportunities**.

ANNEXURE 5- EVENT BANNER

ANNEXURE 6- OUTCOMES / IMPACT

- **Enhanced Oral Health Awareness:**

The event aimed to sensitize the residents of the Ashok Vihar about the importance of maintaining good oral hygiene, the need for regular dental check-ups, and the connection between oral health and overall well-being.

- **Education on Oral Hygiene Practices:**

Residents of the Ashok Vihar received practical demonstrations on effective toothbrushing techniques, and use of appropriate oral hygiene aids.

- **Early Detection of Dental Problems:**

Through oral screening, the dental team identified common dental conditions such as dental caries, gum diseases, enabling timely referrals for further management.

- **Promotion of Healthy Dietary Habits:**

Counseling sessions emphasized the importance of a balanced, non-cariogenic diet to maintain both oral and general health.

- **Distribution of Oral Hygiene Kits:**

Toothbrushes, toothpaste, and awareness leaflets were distributed to promote continuity of oral hygiene practices.

- **Improved Access to Oral Health Services:**

By bringing dental screening to the residents of the Ashok Vihar, the event bridged the gap between healthcare providers and a vulnerable.

- **Intern Engagement:**

The event served as a valuable experiential learning opportunity for Intern students, enhancing their understanding of oral health challenges in real- world settings.

ANNEXURE 7-FEEDBACKS

Int Total Feedback

Date - 22/06/2024

Location - Ashtak Vihar, Gurgaon.

This camp was enriching experience for us as interns. It provided a unique opportunity to step out and engage directly with the community. Camp also helped us develop imp. skills, communication & team work were essential & especially when coordinating with fellow interns & local residents.

Interns : Kunal
Gurcinder

Oral Screening at Ashok Vihar, Gurugram

ANNEXURE 9- CONCLUSION

The Oral Health Screening at Ashok Vihar, Gurugram successfully fulfilled its objective of promoting oral health awareness and delivering oral health education talk on correct brushing techniques, the right choice of toothbrush and toothpaste, and the importance of maintaining a balanced diet for healthy teeth among residents of the village. In the end Oral Hygiene kits comprising Toothbrushes and Toothpastes were distributed.

ANNEXURE 10-ACKNOWLEDGMENTS

The Department of Public Health Dentistry, Faculty of Dental Sciences, SGT University organized a dental camp on **22th June, 2026 at Ashok Vihar, Gurugram.**

The Department of Public Health Dentistry, Faculty of Dental Sciences, SGT University, extends heartfelt gratitude to all individuals and organizations whose support made the event a success. We express our Special thanks to the residents of the **Ashok Vihar, Gurugram** for their cooperation and active participation in this noble endeavor.

The initiative took place under the guidance of Dr. Meenakshi Chopra (Professor and Head, Department of Public Health Dentistry).

The dental team was headed by interns- Komal, Gursimer and Supporting Staff – Mr. Devesh.

Our department extends gratitude to each member whose enthusiasm and teamwork ensured smooth coordination and successful execution of all activities. With the involvement of every single member of the dental team and their enormous efforts, health education and health promotion were achieved at its best.

- Comprehensive oral health screening of residents by the team from the Department of Public Health Dentistry
- Personalized consultations offering advice on oral hygiene maintenance, denture care, and dietary habits.
- Awareness session on the importance of oral health in maintaining overall systemic health among students.
- Distribution of oral hygiene kits including toothbrushes, toothpaste, and educational pamphlets.
- Interactive and recreational activities to foster emotional connection and well-being among the students.
- Collaborative effort between SGT University and Nursing department promoting social responsibility and community engagement.
- Student participation and experiential learning through field-based public health practice.

ANNEXURE IV- EVENT POSTER/BANNER/INVITATION CARD/LETTER

ANNEXURE V- OUTCOMES / IMPACT

- **Enhanced Oral Health Awareness:**

The event aimed to sensitize older adults about the importance of maintaining good oral hygiene, regular dental checkups, and the relationship between oral health and general well-being.

- **Education on Oral Hygiene Practices:**

Participants received practical demonstrations on effective toothbrushing techniques, denture hygiene maintenance, and use of appropriate oral hygiene aids.

- **Early Detection of Dental Problems:**

Through oral screening, the team identified common age-related dental conditions such as dental caries, gum diseases, oral mucosal lesions, and denture-related issues, enabling timely referrals for further management.

- **Promotion of Healthy Dietary Habits:**

Counseling sessions emphasized the importance of a balanced, non-cariogenic diet to maintain both oral and general health among the elderly.

- **Distribution of Oral Hygiene Kits:**

Toothbrushes, toothpaste, and medicines were distributed to promote continuity of oral hygiene practices at home.

- **Improved Access to Oral Health Services:**

By bringing dental screening and preventive care directly to the old age home, the event bridged the gap between healthcare providers and a vulnerable, underserved population.

- **Student and Faculty Engagement:**

The event served as a valuable experiential learning opportunity for dental students and faculty, enhancing their understanding of oral health challenges in real- world settings.

ANNEXURE VIII- CONCLUSIONS

The camp activity organized at **Patli, Gurgaon** successfully fulfilled its objective of promoting oral health awareness, delivering preventive dental care as well as providing basic treatment. The event created a meaningful impact by empowering residents with essential knowledge on maintaining oral hygiene, enabling early detection of dental issues, and providing easily accessible basic treatment services within their community setting.

ANNEXURE IX-ACKNOWLEDGMENTS

The Department of Public Health Dentistry, **Faculty of Dental Sciences, SGT University**, extends heartfelt gratitude to all individuals and organizations whose support made the outreach activity a success.

We express our sincere appreciation to the **University Management** for their continuous encouragement and institutional support in promoting community outreach initiatives. Special thanks to **School team**, for their cooperation and participation in this noble endeavor.

We acknowledge the dedicated efforts of the **faculty members, postgraduate students, interns, and undergraduate volunteers** from the Department of Public Health Dentistry, as well as there were participants from Department of Audiology and Optometry from Allied Health Sciences as well as from Department of Nursing whose enthusiasm and teamwork ensured smooth coordination and successful execution of all activities.

Gratitude is also extended to the **supporting staff** for their logistical assistance, setup, and on-ground arrangements throughout the event.

Lastly, we thank all **participants and residents** for their active involvement, warm interaction, and trust, which truly made this event meaningful and impactful.

ANNEXURE IV- EVENT POSTER/BANNER/INVITATION CARD/LETTER

ANNEXURE V- OUTCOMES / IMPACT

- **Enhanced Oral Health Awareness:**

The event aimed to sensitize the participants about the importance of maintaining good oral hygiene, regular dental checkups, and the relationship between oral health and general well-being.

- **Education on Oral Hygiene Practices:**

Participants received practical demonstrations on effective toothbrushing techniques, denture hygiene maintenance, and use of appropriate oral hygiene aids.

- **Early Detection of Dental Problems:**

Through oral screening, the team identified common age-related dental conditions such as dental caries, gum diseases, oral mucosal lesions, enabling timely referrals for further management.

- **Promotion of Healthy Dietary Habits:**

Counseling sessions emphasized the importance of a balanced, non-cariogenic diet to maintain both oral and general health.

- **Distribution of Oral Hygiene Kits:**

Toothbrushes, toothpaste, and awareness leaflets were distributed to promote continuity of oral hygiene practices at home.

- **Improved Access to Oral Health Services:**

By bringing dental screening and preventive care directly to the camp site, the event bridged the gap between healthcare providers and a vulnerable, underserved population.

- **Student and Faculty Engagement:**

The event served as a valuable experiential learning opportunity for dental students, enhancing their understanding of oral health challenges in real-world settings.

ANNEXURE VIII- CONCLUSIONS

The outreach activity successfully fulfilled its objective of promoting oral health awareness and delivering preventive dental care among the participants. The event created a positive impact by empowering participants with knowledge about maintaining oral hygiene, facilitating early identification of dental problems, and providing accessible basic treatment services within their residential setting.

ANNEXURE IX-ACKNOWLEDGMENTS

The Department of Public Health Dentistry, **Faculty of Dental Sciences, SGT University**, extends heartfelt gratitude to all individuals and SGT Marketing Team whose support made the event a success.

We acknowledge the dedicated efforts of the **faculty members**, and interns whose enthusiasm and teamwork ensured smooth coordination and successful execution of all activities.

Gratitude is also extended to the **supporting staff** for their setup, and on-ground arrangements throughout the event.

Lastly, we thank all **participants** for their active involvement, warm interaction, and trust, which truly made this event meaningful and impactful.
