

FACULTY OF EDUCATION

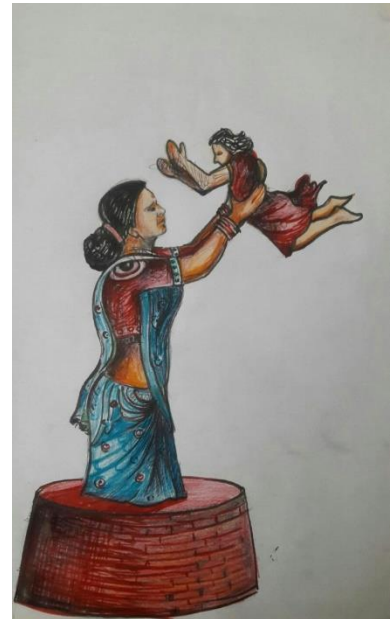

Project for Synergy 2017

“Contribution of Indian Women in Science and Technology”

BetiBachaoBetiPadhao (BBBP) scheme was started on January 22, 2015 as a joint initiative of the Ministry of Women and Child Development, Ministry of Health and Family Welfare and Ministry of Human Resource Development under coordinated and convergent efforts to empower the girl child. BetiBachao, BetiPadhao is a social campaign of the Government of India that aims to generate awareness and improve the efficiency of welfare services intended for girls. The scheme intends to improve the efficiency of services for the welfare of women and to raise awareness regarding women’s rights.

According to the Hon’ble **Prime Minister Sh. Narendra Modi**, “Our mantra should be: son and daughter are equal.” BBBP scheme is true to its words. In the backdrop of the above, **Faculty of Education, SGT University has made a humble attempt to display the advantages of BetiBachaoBetiPadhao through the sculpture of a Woman with a Girl Child and converging the concept with the contribution of Indian Women in Science and Technology through the construction of TECH PARK OF WOMEN .**

Science and Technology is a field historically dominated by men, with a huge disparity in the number of jobs, salaries, and positions offered to women who are as capable as the men. Working in science has not been easy for women, with its long hours, societal biases, and the need to get married and have children in between. There are however pioneering women who have shattered the glass ceiling and established their presence in the field. Let’s look at some of these women, often forgotten heroes, who have made great contributions to science and paved the way for others. These incredible women scientists and technologists from India who are making the nation proud and displayed in the SYNERGY 2017 are DrAnandiBai Joshi, DrJanakiAmmal, Dr Indira Nath, DrVijaylakshmiRavindranath, MsKiranMajumdar Shaw, KalpanaChawla, MsSoumyaSwaminathan, MsTessy Thomas, Dr Indira Hinduja , MsCharusitaChakravarty.

The students of faculty of education under the guidance of faculty members developed the statue which was inaugurated by Honorable chief minister of Haryana, Shri Manohar Lal Khattar, during the Annual Tech Fest SYNERGY 2017.

The event was shared on University Official Social media page and can be accessed through the following link:
